What Do You Know About The Maxwell Car?

This is the time of the year when more people are considering the question of "what car to buy" than at any other time of the year.

This community has its fell about 1000 people who will soon be driving their first car or a new car to replace the old one.

Now, we know that we are trying to sell Maxwell Cars to a great many of these people—depending upon how many we are able to acquaint with the merits of the Maxwell.

The generous offer of the car is evident—in past records is no full of good performance—owner should use it that when the buyer knows these things, he is easy to buy a Maxwell.

In order to tell as many people as possible about the merits of the Maxwell Car we are going to spend a lot of money in the next few weeks in this paper advertising Maxwell merits to those who do not know them.

The reason—we want to sell as many Maxwells as possible this season. Our future allotments will depend upon how many Maxwells we sell now.

You may know that the Maxwell market is a buyer's market, not a seller's market—broadly speaking. The demand for Maxwells the country over is greater than the supply.

For this reason cars are allotted to dealers by the factory according to the size of the dealer's business.

We want to make a showing and be in a position to get a generous allotment of Maxwells for the coming season. Because the more Maxwells are sold in any community, the greater is the future demand. We realize the opportunity to do an ever-increasing Maxwell business.

This is only the first of the several messages we are going to print—a few days ago—concerning the Maxwell Car. But we don't want to be able to adequately present Maxwell merits in printed words alone.

If you are one who is going to buy a new car you will find it desirable to your advantage to find out all you can about the Maxwell before you place your order.

Come in and talk it over with us and let us demonstrate the car to you. Then, don't take our word alone, but ask those who own now Maxwell.

Get "posted" about the Maxwell and you will realize more satisfaction and get more "value received" for your motor car money than ever before.

And we are just as willing to have you investigate other cars just as fully as do you ours. The Maxwell will not suffer by the competition.

Why not start your Maxwell investigation today?

LESSON 9—Second Quarter, For June 4, 1916.
THE INTERNATIONAL SERIES.

Indorse Stevenson

W. W. E. Stevenson is a candidate for the House of Rep- resentatives of the United States and, thoroughly and cordially approving the principles by which he is guided and the ability and capacity which he possesses, I am happy to say, that his election makes me feel as if I were voting for one of the most promising and capable men in any State of the Union.

The people of Chester and the Nation as a whole, since the elevation of Chester Field, Democratic Convention, are meeting assembled, and hereby empower, for consideration W. W. E. Stevenson, and do command him to the front of the State at the election of 1916.

On Tuesday morning, August 20th, 1916, it was called to the attention of the Convention that the Constitution and by-laws of the organization have not been observed. The word was given that the Constitution and by-laws of the organization have not been observed.

It is also important to have a general appeal made to the people of Chester and the Nation as a whole, to the people of the State, that they may see the necessity of electing W. W. E. Stevenson to the House of Representatives.

The Yankee farmer makes $500 more a year than we do. We are as smart as he is and must learn to make this extra $500, too.

In 1900 each farm in the northern Atlantic States produced 1964 worth of product.

Here are some of the subjects Prof. Massey will discuss. Each article telling how do that job:

1. We Must Inquire Why We Make Less Than the Northern or Western Farmer.
2. We Must Make Our Own Lands Richer.
3. We Must Outgrow Our Methods of Cultivation.
4. We Must Make Our Own Meals and Grown.
5. We Must Make Our Own Winter Foods—and Save.
6. We Must Make the Winter Foods—potatoes, fruit, peas, beans, etc.
7. We Must Make Better Gifts Part-Partners in Farm Work.
8. We Must Make Greater Economics in Farm and Home Management.
9. We Must Make Better Business in Buying, Selling, and Keeping Accounts.
10. We Must Give More Attention to Pastures and Meadow Lands.
11. We Must Keep Humus and Fewer Weeds. We Must Hay All the Year Round.
12. We Must Use More Manure and Fertilizer.
13. We Must Adhere to Every Good Principle of Plowing and Manuring Farm Land.
14. We Must Use the Best Seed and Fertilizer.
15. We Must Use the Best Seeds of All Crops.
16. We Must Learn Better Methods of Raising Livestock.

And Prof. Massey's page is only one of fifty features that have made The Progressive Farmer famous as "The Farm Paper with the Punch." It suits every member of the family—not only giving the farmer himself the best help, but also providing the best farm woman's page in America and a superb Young People's page. Order The Progressive Farmer now and make your start toward "$500 More a Year".
