The Fireside That Comes With You

You needn’t have a cold room, a cold corner in the day,—if you have a PERFECT SMOKELESS OIL HEATER. Just take it wherever the extra heat is needed. In five minutes it changes chills to cheery warmth. It’s no trouble and it’s very little expense. We sell it by the single gallon of kerosene. Why start a big coal fire when a little oil heater will do? The Perfection is smokeless, odorless and absolutely safe. The Aladdin Security Oil or Diamond White Oil to obtain best results in Oil Lamps and Heaters. STANDARD OIL COMPANY (New York)
WASHINGTON, D.C. — President William Howard Taft delivered the following message to Congress on August 2, 1911:

Citizens, Party or Peace.

Citizens of the United States, our government and our country are in a state of serious and critical distress. The war with Mexico, which has lasted for several years, has cost the lives of many of our fellow citizens, and has involved an expenditure of millions of dollars. The peace of the government and the security of the country are in great danger, and the consequences of the war may be disastrous.

The President warns that the government is in a state of grave peril and requests that Congress take immediate action to avert disaster. He urges that Congress provide for the defense of the country and for the protection of the government.

The President's message is accompanied by a series of recommendations for action. He recommends that Congress provide for the defense of the country and for the protection of the government. He also recommends that Congress provide for the payment of the war debt and for the support of the army.

The President's message is a call to action for the citizens of the United States. He urges that Congress take immediate action to avert disaster and to protect the government. He also recommends that Congress provide for the payment of the war debt and for the support of the army.
