Oldest Bale in the World Ginned in 1862?

A record to be proved of the largest bale ever ginned is claimed by Mr. Geo. E. Smith, of Gainsville, Ga., who from one-fourth of an acre of cotton will bale a bale weighing 2,000 pounds. Mr. Smith, a cotton grower, has been experimenting with this idea for the last five years and has now succeeded in raising cotton that will be ginned in bales weighing 2,000 pounds. He plans to sell the bales at a premium of $2 per bale over the market price.

Mushroom Town Burned off Map

The mushroom town of Ledyard, Conn., has been all but wiped off the map. The town, which was once a center of the mushroom industry, has been devastated by a fire that destroyed most of the buildings and equipment. The cause of the fire is unknown, but it is believed to have been started by a lightning strike. The town is now in the process of rebuilding, and is expected to be operational within the next few months.

American Rights Must Be Assured

In a speech delivered in London, the American rights of all citizens, including those who are not naturalized, must be assured. The speaker emphasized the importance of protecting the rights of all citizens, regardless of their nationality or citizenship. He called for a strong stance against any attempt to undermine the rights of American citizens, and expressed his support for the United States' role as a leader in the international community.

Dead of Submarine Must Be Disavowed

In a message to the President, the Secretary of State has disavowed the sinking of the submarine. The Secretary stated that the United States has no knowledge of the sinking, and that it is not in its interest to make any statement regarding the incident. He called for a peaceful resolution to the crisis, and urged all parties to refrain from further aggression.

Chester, Va., Dec. 14—Reports that Anderson had been asked to resign as Secretary of State have been denied. The statement, which appeared in the New York Times, was attributed to a secret source. The Secretary has not issued any statement regarding the matter, and it is not known whether he will resign or not.

ANCIENT SERBIAN CITY

By Clarissa MacKin

ANCIENT SERBIAN CITY

The most important point in the present discussion is that the ancient Serbians had a large agricultural empire. Their main crop was the serbia, representing one of the most important varieties. The Stuart, are the best varieties, and the Stuart varieties are to be recommended for South Carolina. It is advisable to mix the egg mash with potash, give appetizing food, and department stores everywhere.

CHESTER ICE AND FUEL CO.
Happiness goes out from the heart before it comes in. It never by any chance stays at home. You can harvest it for the common good, but you cannot store it for your sole individual use. You can let it in, but you cannot carry it out; you cannot buy it; you cannot send it; you cannot try to cut it off by your domesticating it or your confining it. A man must contribute to the stock of human joys before he can participate in its profits. To seek happiness without giving it is a futile quest, and our longings for what we have not learned to give to others are as empty bottles in the wine cellar of the soul. Happiness really never was any good in this world but to give away!

A rosebud set for a fellow sister.
A ring for a fellow worker.
A silver charm for a dear friend.
A locket for a dear friend.
A trinket tray for a debutante.
A mirror for a woman who deserves it.
A Jewel case for a lady friend.
A set of silver cutlery for a young man's fiancee.

And something for a man who loves you.

COLD TROUBLES ARE DANGEROUS.
GOWANS RELIEVES QUICKLY.

A great many people in this section are troubled with cold troubles at this season of the year. GOWANS is the decoction for the treatment of colds, and we often receive notices from satisfied patients, who testify to the relief they claim to have obtained from it. It is never advisable to persist in taking a remedy without offering some account of its reputed virtues. GOWANS, however, has given the most satisfactory results in the treatment of colds, and we recommend it as a safe and efficacious remedy.

**HONOR RECORD**

The story of Mrs. Hawkins is a striking example of how hard work and intelligence can lead to success. She started as a poor girl, but through her own efforts, she accumulated a large fortune. The way she achieved this success is truly inspiring, and her story should be an inspiration to us all.

**RODGERS CITY COMMISSION**

The commission was prepared to accept Miss French, but the state was not ready. The meeting was postponed due to unforeseen circumstances.

**PARTY PLANNING**

A unique custom in the Canadian law is the prohibition of murder. In this part of the country, the law is enforced by a special body, the 6th of the Square, which consists of 40 members. The speaker told of the fight that was instrumental in the prohibition of liquor business, looking to its utter abolition. Where self-questions can be asked, where all racial prejudices can be abolished; where a brotherhood can be achieved;
