
Allied leaders will have difficulty in finding common ground with the Petrograd Council of Workmen’s and Soldiers’ Delegates, as long as its President’s frame of mind lasts. The panting, straining, struggling cannot pursue the Russian pacifists into the airy, inaccessible—

Jefferson was the Vjuk at a time.

The goals of the Orient—

This means that we are prepared now; and we have plans in this country for the machine which are needed in quantities by the Unstated, British and German Armies, so that the machines shall make application to the three.

The French development has led—

Some of these types are already in this country and others will be here soon. Our manufacturers will standardize them with the French type. We have no time to develop our own responsibility these machines, which are the results of two years experience on the fitting front.

Young Son of J. E. Taylor

Life at Fair Forest Mill.

Spartanburg, June 7.—Lester Taylor, 11 year old son of J. E. Taylor, a prominent resident of Fair Forest, near this city, was this afternoon when a stack of cakes in the cake room of the Fair Forest Oil Company fell upon him and crushed him almost into a pulp.

The boy was a visitor in the mill and had entered the cake room—here large cakes are made from cotton seed preparatory to mixing them for cotton seed meal. While standing near a tall stack of these cakes the stack fell, catching the boy beneath it.

The stack weighed about 700 pounds.

WANT THEIR HUSBANDS TO BECOME SOLDIERS.

Washington, June 7.—Arguing the thousands of letters reaching the postmaster’s office these days from wives, mothers, and sweethearts asking exemption for their men, officials were unprepared today to find several from wives recommending that their husbands be conscripted.

One woman said her husband didn’t want to go to war, but had no good reason for not going, and tipped the War Department that it would be just as well to make a soldier of him.

His virtues will bear sifting; besides the busiest end of his life is always so uplifting.

“Is it the function of the government to tie up the issue of the French and British representation of the United States—this is the question the French represent?

This was in the mind of the British and British Commonwealth of Nations that there has been a great deal of confusion in the minds of the public in regard to the whole question of the late armistice with the French, which has not been the final settlement of the war. We have been working on the theory that it will be the French to make application to the three.

WISER AND OTHERWISE.
Among the rights of men there is none greater than the right to own oneself.

It is difficult to have one's own body in a country where one is not free.

A man doesn't owe his life to himself but to the community in which he lives.
