WASHINGTON LETTER.

The Guantamano Marquis—The Bankruptcy Bill—Methodist Centenary.

From The Regular Correspondent.

WASHINGTON, D.C., June 17.—The Marquis of Guantamano is reported as being in the capital, and as having been received by President Franklin-the first time that it has been reported that the Marquis will land upon our soil. The Marquis, who is said to have brought with him a large entourage, is said to have been received with great ceremony. The President is said to have given him a warm welcome, and to have expressed his admiration for the Marquis's many virtues.

Among the Marquis's companions were several high-ranking military officers, who were expected to be appointed to important positions in the U.S. military. The Marquis is also said to have brought a large amount of gold, which was expected to be used for the construction of a new palace for the Marquis in Washington.

The Marquis's visit is expected to last for several weeks, during which time he will be engaged in various diplomatic activities. The President is expected to host a grand ball in honor of the Marquis, and to present him with a number of gifts.

Note About Camp Life.

The rations here will not make the boys fat, in fact, numbers of them are said to be on the thin side. The quantity of food for the heavy work required is ample for those on duty, but less for those who are not on duty.

The rations consist of bread; two pounds of rice; ten pounds of potatoes; eight pounds of sugar; four pounds of salt. The rations are given out daily, and are distributed to the men by their company commanders.

The men are said to be in good health, and are said to be satisfied with the rations. The only complaint is that the potatoes are sometimes too hard to eat.

The officers are said to be in better health than the men, and are able to perform their duties with greater ease. The officers are given a better ration than the men, and are able to keep in better condition.

The weather here is said to be pleasant, and the men are able to enjoy their leisure hours.

The hospital is said to be in good condition, and the doctors are said to be able to cope with any medical emergencies that may arise.
For Governor—G. Walt WhitBellinger, George S. Mower.

Though Mr. Brunson filed his pledge and congressional candidates who wished to present themselves for the election to the electorate, they all accepted the pledge.

The land was red hot, scorching Gov. Stokes and Thomas F. James Norton, J. E. Ellerbe.

The platform was appropriately watered from the fountain, but the whole land had been abundantly watered from the fountain and all supplies, and it was fresh and pleasant.

It is needless to say that a large number of deputies were present, and the audience was very attentive to the sermon.
