BETHEL M. E. CHURCH, CHESTER, S. C.

DEDICATION.

The New Methodist Church For-

mally Set Apart.

Last Sabbath was Method- 

ist Day in Chester. The Methodist 

church had arranged with their 

regular services in order that they 

might meet, mingle, worship, and 

rejoice with each other.

Not only had the streets been 

breathtakingly sparked for the occasion 

but the whole land had been abun-

dantly watered from the fountain 

of all good supplies, adding a new 

fresh and pleasant touch. It is

impossible to say what a large 

portion of the congregation al-

together witnessed.

It was a fine day, and the sun 

shone with great brilliancy.

The leading people, Messrs. Compton, 

Mr. W. A. Leyton, Mr. J. H. Hines, 

Mr. J. H. R. Hines, and Mr. L. C. 

Harting, conducted the service. 

The platform was equipped.

Two shrubs, one with a banner 

from the church, and one with 

a picture frame, were placed 

in the front of the platform.

The service opened with a 

song, and prayer by Bishop Duncan. 

The service lasted for about 

three hours, and the congregation 

were thoroughly satisfied.

Mrs. J. H. Hogg has returned 

home from a visit to Mars hill, 

N. C.

Theodore Bell and Alva 

Brown have returned home 

from their visit to the Confederate 

bivouac at Black Mountain.

The Confederate line is being 

built towards the west.

The Main Question.

The main question before the citizens of South Carolina is: is it right for South Carolina to sell intoxicating liquors for beverage purposes and for profit? It is right to engage in a business that deals with the suppression of crime, vice, and disorder, that licenses and regulates the sale of intoxicating liquors for beverage purposes; that is to say, it is right to engage in the business of selling intoxicating liquors for beverage purposes and for profit.

In other states the individuals who do not want to innocent children are taxed for the support of the public schools, and the State pays the agent a recompense for the profit he makes on the sale of intoxicating liquors. Thus, the State, by taxing the individuals who do the selling, makes it possible for the State to support the public schools.

The principle of state control.

The principle of state control is the only principle that we have in South Carolina. The State has established one principle which we believe will prove valuable and beneficial.

An Admonition.

We know that the most important subject at the present time is the arrest of all the intemperate men who can put it for the Democratic party. It is not in their interest to arrest the intemperate men, but it is in the interest of the Democratic party to arrest them.
