PRESIDENT CALLS
STATE TROOPS
TO ARMS

F. R. Roosevelt to be used only under advice and consent of the
National Council of the States and the Secretary of War.

WASHINGTON, June 19.—Versally the entire mobile through the
National Guard of the States and the National army was called out.

The mobilization of the National Guard is immediate for such service on the
frontier army some miles south of the Rio Grande from Brownsville to El
Columbus, June 19.—

Militia officers believe that the

STOP! LOOK! LISTEN!

The above advice applies to no class more aptly than to the farmer on the subject of hemp and sandhills.

Our county in the main has been fortunate in other years so far as crop loss by hail is concerned (though there have been several heavy and severe losses during that time), but the very next hailstorm of serious nature may be right here in our midst and may wipe out at one blow all of the toil and preparation of months. Hail has wrecked destruction in other parts of the State already this spring, and the very next storm may occur in Chester.

We are not making an effort to frighten the farmers into separating from any of their good co-operative, but we do want to be in a position to help our friends when trouble comes. All losses paid promptly. No trouble about adjustments.

RATES REASONABLE.

WILSON WILL NOT WITHDRAW OUR TROOPS

Three Themes in American History to Take in American

Writings, June 21—Secretary Rice and President Wilson have both made it clear that American forces are to be withdrawn from the Mexican port of Veracruz, in order that the nation may be placed in a position to recover from the effects of a great war, and that the nation shall be able to concentrate its energies upon the solution of the great problems of peace and security which face it. The policy of the United States is to withdraw its forces from the Mexican port of Veracruz, and to take such action as will enable the United States to recover from the effects of a great war, and to concentrate its energies upon the solution of the great problems of peace and security which face it. Why Multiplied Thousands
Choose the Chandler

NOTHING has been added to the price and nothing taken from the car to compensate for the higher production costs of the Chandler Six.

Before the prices asked for other cars were marked up, Chandler was the first choice of thousands of careful buyers. It is not to be wondered at, therefore, that with distinct price advantage added to distinct mechanical superiority, the Chandler is first choice today of multiplied thousands.

Chandler sales for the year 1916 are setting a new big record for high grade sales.

In the midst of extravagant claims for new and wonderful features, the Chandler Motor, refined and perfected through three years of development, remains free from any limit of experimentation. And Chandler bodies are the most beautiful of the year.

THOMASVILLE FACTORY.
DEVELOPED BY FIRE,
Thomassville, June 17.—The effects on the Thomasville Silk & Ribbon Works were destroyed by fire this morning taking lives between 1 and 2 when. When first discovered, the fire had gained such headway that the setting of the building was im-
possibly. The cause is not known as yet. The loss will amount to between $400 and $500, with no insurance.

The Reputation of the Maxwell

"WHAT is the bore and stroke of your motor," was asked a Maxwell owner not long ago.

"I don't know," he replied simply; "I don't buy cars on figures any more. I buy them on what they've done."

For this man, and for many others like him, it was enough that during the thirteen strenuous years the Maxwell record for performance, reliability and economy had swept it to the front.

Figures—engine speed figures, horse-power figures, wheel-base figures—they meant nothing to him. The name "Maxwell" carried more weight than all the technical description that could be offered.

Maxwell cars have achieved this great good will and this priceless position with the public by their unequalled record of things done. What a car actually does in the hands of owners, year after year, is another matter.

The Maxwell car has won its position through sheer merit. It has set record after record in competition with cars of all prices and classes.

Everything considered, the Maxwell is the safe investment. It is a known, tried and proved product. It will serve you as it is serving and has served countless others.

Let us arrange for a demonstration today. You will be under no obligation. We want to give you a chance to convince yourself.

UNPLEASANT HISTORY

Students of Connecticut history will find much in the story recently published in a volume bearing the title of "Rural Connecticut," at a cost of $1.50, published by the Department of Agriculture, that will be of interest to all.

The story of Connecticut's history is told in a clear, concise and interesting manner, and is an excellent introduction to the study of the state's past.

The story begins with the early days of settlement, and follows the progress of the state through the years, with particular reference to the development of the state's industries and commerce.

The book is well illustrated, and contains a number of maps, diagrams and charts, which help to make the story easy to follow.

The author, a physician, has written the story in a manner that is both informative and entertaining, and the book is highly recommended for all who are interested in the history of Connecticut.

The book is available at all bookstores, and is a valuable addition to any library.
