**ACROSS THE BRONX**

BY CLARISSA MAGUIRE

"Oh, what a moment, Mr. Wilvans!"

A man, with a pleasant, sunny smile, something very special in each eye, grasped the arm of the patrician, his voice a deep, sympathetic baritone. "You will take me to little Beth Vandal?"

"Certainly, A. J. man," expected the patrician, "I will go with you to any place and do anything you wish."

The man was glad to have the young man's help; he was more than willing to do anything. He was a man of exemplary character, of unselfish, of properly kind. He was a man of proper behavior.

PROOF POOR ROADS ARE EXPENSIVE

The story of over 20,000 miles of road in our country is a story of blood and sweat and labor. It has been a battle for every dollar. The men who have built our roads have done so with the utmost economy, and their efforts have not been in vain. The roads are needed, and they are expensive. For this reason we urge the immediate completion of the road system in our country.

ROAD BUILDING

It is said that 10 dollars can build a road. This is not correct. It is a matter of judgment and experience. The road should be built to last, and the cost should be reasonable. The road should be made of good material, and the work should be done well. The roads are a matter of public interest and concern, and they should be made to meet the needs of the people.

Of course, we first look that we are serious students of our own. We do not wish to be mere students, but we want to be useful citizens of the country. We believe that the best way to do this is to get an education. We know that education is not just for the rich and the famous, but for everyone. We believe that education is the key to a better future for all of us. We want to get an education, not just for ourselves, but for our children. We want to make sure that they have the same opportunities that we have. We do not want to be a burden to our children. We want to be a help to them. We want to be able to give them a better life than we had.

A reminder to those who have not yet paid their taxes to the city of Chester. We remind you that you have until the end of the month to pay your taxes. We want to make sure that everyone pays their taxes. We believe that it is important for everyone to pay their taxes. We believe that it is a way to show our respect for the city of Chester. We want to make sure that everyone pays their taxes. We do not want to be a burden to the city of Chester. We want to be a help to the city of Chester. We want to be able to give the city of Chester the money that it needs.

Now Paid for What He Knows

The pain would kill me. I was hardly able to work after one of those attacks. Mrs. Sylvania Woods, of Clifton Mills, Ky., in a recent letter, said, "I wish every suffering woman would give us a chance to help her."

Get a Bottle Today!

The longest distance ever measured in the United States by the triangulation method was the 135 miles from Chesapeake on the east coast to the Galapagos Islands in the Pacific Ocean. In carrying out this feat It was necessary for powerful astronomers to use the latest instruments and to work in the most favorable conditions.

Are you troubled with Headache, backache, side-ache, nervousness, insomnia, indigestion, weakness, and general feeling of being unwell? Signs that you need Cardui, the woman's tonic. The bottle that Mrs. Sylvania Woods prescribed is worth a trial. Get a bottle today! It has been helping women, all over the world, for over fifty years.
