SUPERVISOR'S REPORT

Tells of Running Fight Off the Irish Line's Destruction.

An Atlantic Port, June 26.—Members of the crew of a British steamship which arrived here today reported that a U-boat sent a shell into the submarine, causing an explosion which parted the submarine amidships. The British steamer was not injured.

The submarine was five miles distant and running away after having attacked the British vessel nearly 100 miles off the coast of Ireland. According to the story told by one of the gunners of the British steamer, the submarine had the range after the second shot and so did the German, said the British gunner. "The Germans were using their two guns, fore and aft, while we had only one, but the shells were falling short and they started to run, with the twelfth, the one that sent him down, struck just abaft the periscope. He was then more than 9,000 yards away. We would all see the boat break in two and fro down, disappearing in a few minutes. I sent four more shots into the water at this spot where she disappeared to let any of the Boches who might have escaped know that we were still around and would take care of them if they appeared."

At the same time our battle was going on the wireless operator picked up the call of an American vessel that arrived at an Atlantic port last Friday, and also caught a message that another American ship had been torpedoed and was sinking. The message said that the merchantman was firing on the lifeboats.

That vessel was about thirty miles to the south of us. I do not know how they managed to get out.

The steamer's Captain and other officers would not discuss the battle, but confirmation of the gunner's story was obtained from other members of the crew.

Hazelwood Township.

A schoolteacher in the Philippines received this excuse from an absent pupil: "Dear Teacher: A thief stole father's clothes last night. Father put on all mother's garments so he could go out and chase the robber and mother is wearing everything else in the house except my hat. I will come back to school as soon as I can."
WHAT CHESTER NEEDS

There is a new agency in this western world which is doing much towards the health of the community. It is called "Chester" and it is doing its best to spread its good work among the people. It is doing this by providing a proper environment for its patients, by giving them proper care and attention, and by educating the people about the importance of health. Chester is doing all this in an effort to improve the health of the people, and it is making great strides in this direction.

NEEDS AND THEIR FOOD

Today's Mission of Agriculture

Today's Mission of Agriculture is a major part of our work. We are trying to help people to understand the importance of agriculture and to develop a proper attitude towards it. We are doing this by providing information about the different types of agriculture and by helping people to develop the right kind of skills to be successful in this field. We are also working to create a proper environment for those who are interested in agriculture and to encourage them to develop the necessary skills.

ENTREATY AT THE POTOMAC AL CHIARI

The story is told of a group of gentlemen who went to the Potomac Al Chiari to make a deal. They had heard that this place was a good place to do business and they wanted to make some money. They went to the Potomac Al Chiari and made a deal with some of the owners. They agreed to buy some of their goods and to sell them in their own town.

They were very pleased with the deal and they started to make good money. They continued to do business with the Potomac Al Chiari and they became very successful.

CATARHUA BREAD

"It's a big honest loaf, full of strength and energy. It will tune you up and increase your vitality."

The Father of Our Country

Our model of patriotism and of the great mass of the people around the world. I hope that all of us will do our part to keep our country strong and free. The Father of Our Country was a great man and deserves our respect.

The Father of Our Country was a great man who was very much respected by the people. He was a great leader and did a lot for our country. His ideas were very important and they are still important today. We must remember his legacy and try to follow his example.

KEEP-KOOL CLOTHES
Declare Your Independence.

When, in the course of the Mercury's rise, it becomes necessary for Sensible Men and Boys to forever throw off the yoke of Sun's tyranny - Be it hereby resolved: Those who do joyfully renounce that stunting oppression of weighty, stuffy suits - and declare themselves Free and Independent, Cool and Comfortable in KEE Clothes.

Hurrah! shouts Miss Keep-Kool. Light the torch, bring on the noise and fun - and buy a Keep-Kool suit from Jos. Wylie & Co.

An Ambition and a Record
I wish all the boys were identified with the work of the war. Women are fighting in many ways, and we are as much a part of the war as the men. We are making shoes, making clothing, and doing everything we can to help the men. The war is not only a battle on the field, but it is a battle in every home. We are working hard to make our men feel that we are with them in every way possible.
