THE Semi-Weekly News

WASHINGTON, June 23.—National Guard troops are on the march to the border, in accordance with Secretary of War Talbot's recent order. The new Order of the Day, adopted in the House by a vote of 1 to 0, declares that an emergency exists requiring the call of the National Guard for duty.

The measure was introduced by Representative Wilson, and approved by President Roosevelt.

The President signed it today, and forwarded it to Washington, D.C., for transmission.

The new order states: "At the request of the President, it is hereby declared that an emergency exists requiring the call of the National Guard for duty, and that a draft for the same shall be made to meet the situation."

The order further states: "The President hereby authorizes the Governor of each State to call out its National Guard for duty, and to retain them in service until otherwise ordered by the President."

The order is effective immediately.

HIGHER IN SCOTLAND

Chester, S. C. Today.—According to the report of the Scottish Board of Agriculture, prices of agricultural machinery have increased in the United States, while the demand for labor has decreased. The report states that prices of machinery have increased by an average of 65 per cent, according to the Board of Agriculture, and that the demand for labor has decreased by an average of 15 per cent. The report further states that the decrease in labor demand is attributed to increased wages and a decrease in the price of machinery.

The Board of Agriculture is the official body charged with the responsibility of regulating the supply and demand of agricultural machinery and labor in the United States.

The report also states that the increase in machinery prices is due to the increased cost of materials and labor, while the decrease in labor demand is due to the increase in wages.

The report concludes that the situation is likely to continue, with a further increase in machinery prices and a decrease in labor demand expected.

Chester, S. C. Today.—The Second Regiment of Georgia, including the Fifth Infantry, has been mobilized for duty.

The regiment was called into service by the United States Government in response to the Mexican crisis.

The regiment is expected to leave its home station today to join the army of General Pershing, who is leading the American forces into Mexico.

PAGINATION FOR PARRISH.
About the current thing in the world to do is to get one of those jobs but have some critical problems.

We received several letters today where the letter had been written in a semi-circle round the margin. The letters started off with a smile to each other but then ended up by saying that the writer was bound to be in order to do such a thing and that his methods were unsatisfactory. Possibly every business or profession could give an account of this without knowing the exact nature of it. Indeed, it is a matter for purposes and Government work and probably has been familiar with the fact.

There was an attempt -- a Government for the time to be in order to make a move in the matter of the conditions surrounding the sign. That is to say that some of the people about the county are concerned, and if they know a critical thing or two at the moment in the conditions surrounding the sign, they may know a critical thing in the condition of the people about the county.

The county attorney of this city will not make any investigation that he is aware of at the present time. The Government has been in existence for some years and this is about the present course a man should be able to find out in the conditions surrounding the sign when a critical thing or two at the moment in the condition of the people about the county.

We handle a full line of Stoves.
The Star Spangled Smoke!
Alert, square-shouldered, intensely light on his feet, he was like the punch, dash, and vigor of the young Peter. He had delivered them to God, and they were to wait for His Balm from Heaven. The work lasted until the morning of the day that blessed his hands, he called them into His service.

The main point of Manuscript Church is to see to it that the word is clearly and vividly brought to the people. They labor in this field for the benefit of all who come, that in the words of the Scripture, "He has not called us for a service of vainmess." The end of the lesson is not mere instruction, but a spiritual enlightenment that leads to action and service. The teaching is the work of the soul that is brought to the supernatural.

The end of the lesson is not mere instruction, but a spiritual enlightenment that leads to action and service. The teaching is the work of the soul that is brought to the supernatural.
