CHESTER, S. C., TUESDAY, JULY 23, 1901.

A GREAT JUDGE.

Dr. W. T. Gilbert to the Teachers of the Public Schools.

The influence of Dr. W. T. Gilbert on the educational system of the State of South Carolina has been far-reaching. He has inspired many young men with a love of learning, and has helped to make the public schools a place of real intellectual growth.

A new school building was recently dedicated in Greenville. It is a fine example of modern architecture, and is equipped with all the latest educational apparatus.

The state capital, Columbia, has been the scene of much activity lately. The legislature is in session, and many important bills are being debated. Among them is a bill to establish a system of free public schools throughout the state.

The weather has been unusually mild, and the people are looking forward to a pleasant summer. The gardens are in full bloom, and the birds are singing sweetly.

THE LANTERN.

New Jersey Farmers' Bank.

Through the agency of the government, the farmers of New Jersey have organized a bank of their own. This institution is intended to meet the financial needs of the rural population, and to promote the interests of agriculture.

The bank has a capital of $1,000,000, and is authorized to issue notes up to that amount. It is expected to begin operations early in the fall.

Some interesting points about this new institution are:

1. It is the first bank established by farmers for farmers.

2. Its officers are drawn from the ranks of the agricultural community.

3. It is expected to provide a source of credit for farmers, enabling them to purchase land, improvements, and other necessary supplies.

4. It will promote the stability and prosperity of the rural economy.

The opening of this bank is a significant event in the history of New Jersey, and is sure to have a salutary effect on the agricultural community.
