Letter from Green.

July 7.—The usual quietness of the country was broken Monday by the firing of shots in the business part of the town on the occasion of the marriage of one of the young ladies. The occasion was followed by the usual disorders in the form of a dance, and the wail he heard it, made it necessary to call out the police and the sheriff of the county. The young lady's father was killed, and the other man wounded. The young lady was arrested, and the man was released on bail.

We should remember that each day brings its own troubles, and that we should not be too hasty in making judgments. It is better to keep our hearts with all diligence, and to keep our word to the Lord, in order that we may do what is right in His sight.
Landsc Letter

The May flowers are blooming as full bloom, with sufficing rain to keep them in their most lovely perfection. New machinery of different kinds is being placed. A zoo home publised a recent notice that the company will be running the machinery in a few days.

Mr. Bennett, the new owner of the Greenwood Plant, is in a state of excitement and will stop the line for the sake of sake cutting. The machine is a new one and will be of great assistance to the company in its present state of growth. The machine is a new one and will be of great assistance to the company in its present state of growth.
