Southampton Farmers Have Lost At Least $59,000,000 In Single Crop

Washington, June 29—The total loss to farmers from the spread of the paralytic plague among the infants in the northwestern states is estimated at at least $59,000,000. The disease has already spread to New York and other states, where it has been reported to have cost the lives of many children. The spread of the disease is feared to be even greater in the coming weeks.

THE BIG DRIVE IS NOW ON

WASHINGTON.

FIRST YEAR'S ENGAGEMENT OF "WASHINGTON".

Fort Myer, Va., June 29—The first year's engagement of the battleship "Washington" is now underway. The ship arrived at her new base, the Naval Yard, today, after a successful maiden voyage. The "Washington" has been fitted out for battle and is ready to join the fleet at any time.

THE BREAKTHROUGH TO THE NORTH

Washington, June 29—The breakthrough to the north has been achieved by the forces of the United States. The advance has been rapid and the gains have been substantial. The enemy has been forced to withdraw and the situation on the front lines is favorable.

No "New Models" in Mid-Season

The Chandler Type 17 was a perfected car January 1st. It had back of it three years of refinement, three years of making good. There is no reason to change it or modify it or call it by some new name in mid-season.

Chandler Values are Permanent

The Chandler Type 17—thousands of them on the road today from coast to coast and giving the most satisfactory service—is distinctively the medium-priced car of the year.

It's the car of which you treated as the son of the year, weather conditions, of water ever received at this laboratory.

The Maxwell Motor Car is the Big, Outstanding Motor Car Value in the Country Today.

Nothing like it has ever been offered for the money.

Just consider, complete electrical equipment for starting and lighting, speedometer, ammeter, fan, oil pressure indicator. Complete running gear of brake, transmission shaft, steering gear, differential, propeller shaft, heel and toe differential, and india rubber hanger for rear wheels. Complete driving gear of propeller shaft, differential, transmission shaft, gear shift lever, brake connecting rod and brake drums. Complete springs and shock absorbers. Complete front and rear suspension. Complete distributor, ignition coil, magneto, solenoid, spark plugs, and all the other features that are necessary to a modern motor car. The Maxwell is standardized. It will not be changed except in minor improvements from time to time to meet the ever increasing demands of the public. It is the same as every other Maxwell ever made. Maxwell owners are the evidence of that.

Increased production and the fact that the Maxwell Motor Car is the biggest demand in the world has made it possible to meet the demand at the old price of $599. The Maxwell is no bargain. It is the very soul of value. Every feature that the expensive car has. And good looks, com- plete luxury or equipment. Last year the Maxwell car represented a big value. Many thousands of satisfied Maxwell owners have declared that the Maxwell is no bargain. It is the very soul of value. Every feature that the expensive car has.
