OBSERVANCE OF SABBATH

Essential to the Welfare of Man and the Civilization of the World

It is impossible to overestimate the importance of the observance of the Sabbath. It is essential to the well-being of the human organism, and of the best interests of the individual. It is an institution which the Almighty has established for the mutual benefit of all people. All are under obligation to observe it religiously, and to bring forth in their lives the fruits of the Ten Commandments.

It was on the Sabbath that the heavens were created, and all the other commandments rest, could have passed without the Sabbath. The Sabbath still in force. It was enacted in the moral law and the apostolic church set their example. Every law was made for man, and not man for every law. But the Sabbath is a day of rest, a day to remember the covenant which God made with his people.

The following, from The Delineator, may be interesting to the readers of The Lantern.

I. The Author of "Diane." (Continued.)

When I first met the writer, I was introduced to her as the author of "Diane." She was a slender figure, with a soft smile upon her lips. She held a book in her hand, and as she opened it, a page fell upon the floor. I bent down to pick it up, and as I did so, she said:

"You are a subscriber to our magazine, are you not?"

"Yes," I replied, "I am a subscriber to The Lantern.

"And you have read my story in the last number?"

"Yes, I have read it, and I enjoyed it very much."

"I am glad to hear you say so. I have been working on another story, and I hope to have it ready for the next number."

"I look forward to reading it."

"Thank you."

And with these words, she walked away from me, leaving me to wonder what her story would be like. "Diane," I thought, "what a lovely name!"
