The Lantern, Chester S.C.- July 13, 1906

J T. Bigham
Just as we expected. The up-to-date Men's Ladies' and Children's Shoes are sold at the bargain counters at 15 per cent. less than cost. We do this in order to discontinue the Shoe Business, as our store must be remodeled for our new line of Ladies' Tailor-Made Clothing. So, therefore bear in your mind that this stock of Shoes must be sold regardless of your order. No matter how unusual, how extraordinary our values are, you'll find them exactly as advertised.

This news has a sensational flavor, but it is all true, every word. Read, then act. It means money saved. Promises in print performed at the counter.
THE LANTERN.

PUBLISHED THURSDAYS AND FRIDAYS.

PUBLISHED JULY 13, 1894.

There is a dispute among the present conditions for govern-
ment of the United States, and the Masonic "Majestic Mill" and the "American Mill" stand on opposite sides of the
road. The "Majestic Mill" is the one that is used for the
manufacture of paper, and the "American Mill" is the one
that is used for the manufacture of cloth.

How this conflict will end is anybody's guess. At the
present time, the "Majestic Mill" is the one that is used for
the manufacture of paper, while the "American Mill" is the one
that is used for the manufacture of cloth.

Rural mail routes in some places have been reduced in
length, and in others, routes have been eliminated because
the rural population is too small to support them. However,
the government has decided to continue the rural mail routes
that are still in operation.

The "American Mill" has been making efforts to improve
its products, but the "Majestic Mill" has been doing even
more. The "Majestic Mill" has invested a large amount of
money in new machinery, and this has resulted in an increase
in production.

The "American Mill" has been trying to compete with the
"Majestic Mill" by offering lower prices, but the "Majestic
Mill" has been able to maintain its prices due to its lower
production costs.
