CHESTER, S. C., FRIDAY, JULY 10, 1908.

TWO DEPARTMENTS
AD DEPARTMENT.

Which of these are you interested in? If you are in business you are interested in both, because you can do both at once. If you are in business, you are interested in both. If you are not in business, you are interested in both.

And then you are interested in the Advertising Department, you know it pays to Advertise.

Something Should Be Done

What is causing the increase of Catarrh in Chester?

Catarrh is a diseased state in the upper respiratory passages, while congestion is a condition which leaves the body better able to resist disease. In catarrh, the mucous membrane becomes inflamed and swollen, and the nose is filled with a discharge of mucus. This condition may be caused by any of a number of factors, such as colds, allergies, or infections.

In congested states, the mucous membrane is not swollen and there is no discharge. This condition may be caused by a number of factors, such as smoking, alcohol consumption, or exposure to cold air.

It is important to note that treatment for catarrh and congestion may differ. Treatment for catarrh may involve the use of decongestants, nasal sprays, or antibiotics, while treatment for congestion may involve the use of moisturizers, saline solutions, or antihistamines.

In conclusion, while catarrh and congestion may appear similar, they are actually different conditions which require different treatments. It is important to consult a healthcare provider to determine the best course of treatment for your specific condition.

Healthy Teeth

A good health is not only important for physical well-being, but also for mental and emotional health. A healthy mouth is a key component of overall health, and it is important to maintain good oral hygiene to prevent infections and diseases.

In addition to maintaining good oral hygiene, it is important to eat a balanced diet rich in vitamins and minerals, such as calcium and phosphorus, which are important for bone health. Regular exercise and adequate rest are also important for maintaining good oral health.

In conclusion, maintaining good oral health is a key component of overall health. It is important to eat a balanced diet, maintain good oral hygiene, and exercise regularly to prevent infections and diseases and maintain good oral health.

THE LANTERN.
Mr. Charles Douglas Died.

Mr. Charles Douglas died yesterday morning, July 9, 1908, at his home in Blackstock on No. 30 this morning, after an illness of several days. He was 76 years old and was reared about four miles west of Winnsboro. He was well known to all the people of this county. He leaves a wife, two sons, and two daughters.

New Switchboard Purchased.

The patrons of the Patterson telephone company are assured of better service in future, as a new and improved switchboard has been procured by the company. The old one failed to meet the demands of the present day, and it was necessary to purchase a new one.

Mr. Charles Douglas Dead.

ABOUT THE GAME

Sumter, S. C., July 8.—Rock Hill and Sumter played, as was expected, the best game of the series. A good friendly match was played by the locals and Sumter, with the home team winning by a score of 3 to 1. Sumter scored two runs in the fourth inning, and won the game by a comfortable margin. The locals played well, but were not able to match the quality of the home team. The game was played in fine weather, with the crowd enjoying the match and the atmosphere.

THE COMMERCIAL BANK

Chester, S. C.

KEEP A WRITTEN ACCOUNT OF ALL YOUR EXPENDITURES.

You know from experience it is hard to save from your wages if you cannot keep track of what you spend and how much you have left over. The simplest way to do it is to keep an account of what you earn and what you spend. This will help you to see at a glance how much money you have available for savings. It will also help you to avoid overspending and ensure that you are living within your means.
