PREPARE FOR FALL POTATOES.
it is now time to get ready for planting potatoes. The fall potato should be harvested when the leaves are yellowed and the tubers are dry and hard. Leaving the fall potato in the ground too long can lead to rot and disease. It's best to dig them up before the first frost and store them in a cool, dry place.

The Kind You Have Always Bought and Which has been in Use for Over 30 Years

The best varietes of the kind have been selected, and the quality always warranted. No onion is set too small to give good results. The onion is sound and attractive. The onion is better than any other for planting, and will give the best results for all purposes. The onion is carefully packed and will be delivered to the consumer in good condition. The onion is guaranteed to grow and to yield the best results. The onion is selected and packed with care, and the consumer is protected against all risks. The onion is carefully packed and will be delivered to the consumer in good condition. The onion is guaranteed to grow and to yield the best results. The onion is selected and packed with care, and the consumer is protected against all risks.
