Justice of the Peace Frank F. A. Snyder rendered a decision in a case where a restaurant cannot be compelled to serve a meal to a colored man. The restaurant owner claimed that under the provisions of the law, it was his right to refuse to serve such a person. The judge ruled, however, that the law does not give the restaurant the right to refuse service on this basis.

Prohibitions.

It is a current notion that the prohibitions so urged are extreme.

The new banking law, passed by the state legislature, will make it impossible for banks to provide liquor to anyone who asks for it.

The price of blood, the gain from the sale of liquor, is it right for South Carolina to allow it; is there a clear warrant for the law and will not differ much from that un

The judge took the position that the state law is so broad that it eliminates the restaurant from the law in the way in which it is carried on. The state law, however, provides that the restaurant business may not be conducted in a place where alcohol is sold.

The inability of the person who cannot afford to pay for these things to know what is right, and the fact that a beer shop could be compelled to serve a meal to a colored man, are reasons why the law should be changed.

The colored man claimed that under the provisions of the law, he was not compelled to pay for the meal he wanted. The judge ruled, however, that the law does not give the restaurant the right to refuse service on this basis.

As the public treasury needs all the money it can get, it is not advisable to have the liquor business.

Has that part of the law ever been enforced?

The most important differences between the law as it is and the law as it should be are:

1. The cost of preserving the law, (2) the cost of administering it.
