DEADLY TARGET PRACTICE.

Marietta, Ga., Aug. 8—Three persons were killed and two seriously injured late today when shrapnel from the field pieces of three batteries of artillery from the officers' Reserve training camp at Fort McPherson, Ga., passed over the top of Kennesaw mountain and sprayed deadly fragments over a part of its north side. Dead are: Mrs. Seth Harris, 55, white; Charles Martin and Jim Holman, negroes. The injured are Jim Coleman, a negro, and another negro, "who was not identified. The accident occurred when the last shot of the evening's practice had been fired, after the student gunners had spent several hours discharging high explosive shells at targets, a distance of about 2,000 yards. Two theories were expressed here tonight for the killing of Mrs. Harris and the two negroes, that the shell passed over the top of a watered crest of the mountain or struck a rock on the side, rebounding and falling into the center of a group of spectators who had gathered to witness their practice.

all employees who are being or will be drafted into the National

The law further provides that copies of the notice

for whom notices are given.

the imposition of
penalties.

to forward all notices
and register books
to the Labor Board
of Conscription

SWEET POTATOES FOR
UNCLE SAM'S SOLDIERS

Columbia, April 25—Sweat
potatoes have been officially
made a part of the army diet,
according to a telegram
received here today by
Commissioner E. J. Watson,
Secretary of Agriculture.

Mr. Watson for several
weeks has pressed on the
War Department the
claim of the sweet potato
as an article of diet. Failing
in his efforts to get it included
in a table of rations,
he
now
turns
the
matter
over to the Red Cross and
the War Department.
