Unique Rainmaking.

One of the ablest rainmaking plots to be seen to-day is in the Indian provinces. By means of a rocket, more than a mile in waterworks of electric power, is sent to the parachute. This being released at the highest point, floats gently back to earth; the condensation being caused by the evaporation of the ether.

It is said to be decidedly efficacious even where there is scarcely a trace of cloud.

A Seventy Eight Pounder.

Mr. J. H. Sutton, of Fort Mill, unsatisfied with the report that Mr. Abernatby, who runs a fishery at the Jones Mill, on Catawba River, caught a Sturgeon a few days ago that weighed seventy-eight and one half pounds, took the fish to Fort Mill Monday and sold it for $200 to Mr. Lee Hall, who put it on exhibition. Mr. Abernatby was afraid to tackle the fish alive and did not attempt to remove it from the trap until he had shot it several times. This is perhaps the largest fish of any kind ever caught in this section of the state.
