SEPTEMBER 5TH CHESTER COUNTY GOOD ROADS DAY

SENATE PASSES SHIP BILL

WASHINGTON, Aug. 18.—The Senate, after a long debate, yesterday passed the Administration’s shipbuilding bill, which will enable the Navy Department to proceed with the construction of new ships. The bill, which is designed to meet the needs of the Navy in the event of a war, was passed by a vote of 59 to 36. The principal feature of the bill is the provision for the construction of new battleships and cruisers, which will increase the strength of the Navy to 300,000 men. The bill also provides for the enlargement of the fleet and the improvement of existing ships.

LEVY WAIVE CARRIERS.

WASHINGTON, Aug. 18.—The House has passed a resolution to the effect that carriers should be levied and war indemnities should be paid. The resolution was introduced by Representative Green and was passed without debate. The effect of the resolution will be to increase the war indemnity paid by the United States to the amount of $1,000,000,000.

THE BUILDING OF A NEW SOUTH

Washington, Aug. 18.—The House Committee on Interstate Commerce has recommended the building of a new railroad from Washington to Richmond, Virginia, and the opening of the route to the South. The committee believes that this is necessary to enable the South to compete with the North in the commerce of the country. The railroad would be built by the United States Government.

CENTRAL AMERICA.

Washington, Aug. 18.—The House has passed a resolution favoring the establishment of a free trade area in Central America. The resolution was introduced by Representative Green and was passed without debate. The effect of the resolution will be to increase the trade of the United States with Central America.

THE BUREAU OF MINT.

Washington, Aug. 18.—The House has passed a resolution favoring the establishment of a bureau of mint in the United States. The resolution was introduced by Representative Green and was passed without debate. The effect of the resolution will be to increase the production of silver and gold coins.

BRITISH EMBASSY

London, Aug. 18.—The British government has decided to send a mission to the United States to investigate the conditions of the country. The mission will consist of a group of experts who will study the economic and social conditions in the United States.

THE WAR OFFICE.

London, Aug. 18.—The War Office has decided to establish a new department to deal with the problems of the war. The department will be headed by a special officer who will be responsible for the coordination of the work of the various departments of the War Office.

YORK COUNTY NEWS ITEMS

Tampa, Aug. 18.—The Tampa Electric Company has announced the opening of a new power plant, which will supply power to the city of Tampa and the surrounding area. The power plant is expected to be completed by the end of the year.

A BILL TO AMEND THE STATUTES OF THE STATE OF NEW YORK.

New York, Aug. 18.—The Senate has passed a bill to amend the statutes of the state of New York. The bill is designed to increase the powers of the state government and to provide for the better administration of public affairs.

TUESDAY, AUGUST 28

WE SHOULD CONCENTRATE.

If you can but concentrate your work, you will be able to do it better and get more. Several of our readers find that they are not making any progress at all, and that their work is not worth the paper it is written on. They have so many different interests and thoughts that they can't get any one of them started until it has been hung up. They have no idea of what they want to do, and so are always starting something new, without ever finishing anything old.

If you would like to make a study of Concentration and find out what it is, you might try to get some of your friends to concentrate on different things at the same time. You might then compare their results and see what can be done.

SUNDRA TOWNES.

In small towns, everybody's business is Everybody's business. If there are many people in a town, it is likely that there will be many things going on at the same time. It would be wise to try to collect all the information about each of these things and to concentrate on them, instead of letting them go and being forgotten.

Any small incident may be of some interest, and may draw the attention of those who are interested in the town. At any time you can refer to the town papers for news about the town and for information about the town.

Some of the towns have a two-hour day, and some have a four-hour day. You will find that it is better to concentrate on the town's business than to worry about the town's affairs.

Why should you believe all this nonsense about the town being a business? If a man has to depend on his own efforts to make a living, he will find that it is better to concentrate on the town's business than to worry about the town's affairs.

You might try to get some of your friends to do this also, and then see what can be done.

JOE JONES.

JONES MOTOR COMPANY
Chester, S. C.

MAXWELL ENGINE

Almost 34 horsepower from this regular stock Maxwell engine.

34 actual, brake horsepower! Proved by an accurate dynamometer test, made in the Maxwell laboratories August 10, 1916.

There has been a lot of talk about horsepower, and we just want to tell Maxwell owners and prospective owners that in respect to horsepower, as in most other respects, the Maxwell leads by a goodly margin. Not that we attach such great importance to horsepower, but it is one of the things that most people are interested in.

Horsepower is one of those things that is secondary to motor efficiency and economy. A giant has no advantage if he does not appeal, or wrongly applies, his strength.

Maxwell cars have horsepower— all you want or need— probably more per pound of weight than any other automobile in the world.

But we don't make any loud cry.

Because we have more than horsepower to sell you.

We are selling motor cars— complete motor cars, not engines or horsepower. Horsepower is only one of many superior features of the Maxwell car.

**Political Advertisement.**

It is satisfactory to hear that Col. Cunningham is conducting the affairs of the county in a manner which will bring him the endorsement of the present administration. The endorsement of Mr. W. B. Bigham and myself is a substantial one. We have been in the county for several years and have known Mr. Cunningham since he was a young man. We have always been impressed with his integrity and his ability to handle the affairs of the county. We therefore recommend him to the voters of the county as a candidate for the office of sheriff.

Suffering and surgery can be avoided by using Merital.

Pile Remedy

Believe it or not, this is the latest in千里马 drugs. We have cured many cases while suffering from piles. Merital is a true friend to sufferers any time of the year. It is a sure cure for piles, hemorrhoids, and fistulas. It is not a drug to be used for a few days, but as a regular medicine to be taken six tablets a day, after meals.

Why summer colds build up.

The summer is a season when the colds develop. There are many reasons for this. The weather is hot and humid, which is conducive to the growth of bacteria. Also, the children are exposed to many different germs while on vacation. The best way to prevent this is by keeping the body clean and dry. This can be done by keeping the room well ventilated and using a deodorant. It is also important to eat a healthy diet and get plenty of rest.

Get Rid of Tan

Magnetic Balm

Just as the summer is the season for colds, it is also the season for tans. This is because the sun is more powerful during the summer months. The best way to prevent this is by using a sunscreen. It is also important to wear protective clothing and to stay out of the sun for long periods of time.

Vegetable Seeds

We also have a large selection of vegetable seeds. These are packed in attractive seed packets and are available in a variety of shapes and sizes. We also offer a complete line of plant foods, fertilizers, and soil conditioners.

HARDIN MOTOR COMPANY

CHANDLER MOTOR CAR COMPANY

CHESTER, S. C.

CHANDLER MOTOR CAR COMPANY

CLEVELAND, OHIO

Come Now For Your Chandler

The Truth Made Men Stop and Think

A recent statement by the President of the Chandler Motor Company on "motor car values and motorists' prices" occasioned more searchings of the head part of prospective motor car purchasers than any other announcement that has been made by the Auto-mobile Industry in years. It came as a revelation to many who had considered themselves well informed.

This statement led to the purchase of the Chandler Type 17 Sixes within the past three months by hundreds of men who had been attracted, by advertising or otherwise, to the several "marked up" cars in the medium priced field.

If you read this statement by the President of the Chandler Company, as you probably did, you know what we mean by "marked up." You know that in recent months sums ranging from $100 to $200 have been quietly tucked away on the selling prices of these Chandler competitors.

The explanation of the marked up prices has been the abnormal conditions, said to exist and really existing in a degree, in the motor car market.

But you know, too, that the Chandler car has not been marked up.

And so you can still buy this great, prentice-motor-cream, the car that established eight teen months ago, long before the war had made its impact on the industry, at the same price. But be advised, in mind, that every change made in the Chandler car in all these past months has been a refinement which imparts additional utility but has required increased manufacturing cost. Not a single thing has been cut out of the car.

Bear in mind that today, when others are asking you to get one, at a price of a hundred and fifty or two hundred dollars to your check, $1275 plus tax, the car has been improved and refined through four years of intelligent manufacturing and four years on the road in the service of thousands of Chandler drivers.

Bear in mind that the Chandler is still featured by the same Magnetic Ignition which others leave off, even the marked up cars, because it costs so much more. And still featured by its solid gold alumin ium frame, which extends from frame to frame—where others use cast iron—still featured by the Aromatic, simplest chassis, still featured by ball bearings in wheelrim, differential, transmission and elsewhere, which helps make it the lightest running car on the road.

Bear in mind that in this Type 17 Chandler you get the exclusive Chandler full floating rear axle with its silent spur gear, differential. And that you get the highest standard of carburation that the market affords. Gray & Davis separate lighting system, pass double external and internal brakes, which stop the car at the instant of command. Get it sold to you on any grade.

Bear in mind that you get all of these highest grade, high priced features and scores of others which, together with Chandler workmanship, go to make up a car the superior quality of which cannot be questioned in comparison with the quality of any of the many "marked up" cars.

And remember, too, that in the Type 17 Chandler you get the offers you. And that those offers, which proceeded the midsummer "new model" of other makes by seven months, are

In the Chandler you get mechanical excellence, beauty of body design, trim, and finish, at the minimum of purchase price.

If we asked you to pay $100 more or $200 more than that $1275 that's made up of the whole will all be yours. And in considering your purchase of a new car, think for yourself.

Measure what Chandler offers you. Or say what any other car in the medium priced field offers you, relating to price, and we think you will know why your midsummer new model is "marked up."
