CHOKED ON THE COB.

A Citizen Arranges the Campaign.

Mr. Editor:—The most amusing tale that has come into my hands is that of a gentleman who was at a party recently, and that during the course of the evening his companion was seen to be choking on a piece of food. He immediately began to give his companion the Heimlich maneuver, but unfortunately for him, he succeeded in dislodging the food from the companion's throat, but in doing so, he also dislodged the companion's tooth. The companion, of course, was much relieved, but thecitizen was not, as he had no idea how to replace the tooth.

ABBEVILLE, S. C., AUG. 31, 1858.

Editor--LANTERN.

On Tuesday morning a group of citizens and friends of Gen. Robert E. Lee gathered together at the old Federal store in this city for the purpose of making the arrangements for the Gen. Rifles reunion at the battle of New Market. The meeting will be held on the 3rd of next month, and the Gen. will be in attendance.

The arrangements for the meeting are being made by the Gen. and his friends, and the Gen. will be in attendance. The meeting will be held on the 3rd of next month, and the Gen. will be in attendance.

WALTER E. MILLER.

Editor:—I agree with you that the LANTERN has a right to have a say, although it is a minor one. The voters of South Carolina in electing George S. Mover attorney general did so with the understanding that he would support the LANTERN in its efforts to maintain the principles of temperance and to protect the rights of the citizens of the state.

I have been a lifelong member of the LANTERN, and I have always been proud of its work. It is a true friend to the temperance movement, and I believe that its influence is increasing every day. I urge you to continue your efforts to keep the LANTERN alive and well.

Yours truly,

A. E. MILLER.

P. S. I want to make it clear that I am not opposed to the use of alcohol, but I do believe that it should be regulated and taxed to raise revenue for the state. The LANTERN is doing a good work in this respect, and I support its efforts.

The LANTERN has been a strong influence in the Temperance movement for many years, and I believe that its influence is increasing every day. I urge you to continue your efforts to keep the LANTERN alive and well.

Yours truly,

A. E. MILLER.

Having had so many inquiries for the famous Owsenos Wagon, I have determined to handle these wagons exclusively in the future. We have just received a large consignment of all sizes, long and high, iron and wood, and narrow and wide, of this popular wagon. We want to offer them on easy terms of cash and on credit. We have positive instructions from the factory to be as good as any wagon made on earth. Anyone wanting a first wagon will have trouble and money by calling on us.

Car Load of Owsenos Wagons,

The following testimonials speak for themselves. We would publish more but cannot for want of space:

About six years ago I purchased an Owsenos wagon, and have found it in constant use ever since. Last summer the contractor asked permission to use this wagon hauling the building materials, and I have had a load on it for 1,000 pounds each, for the waterworks at the village. I think I have answered it successfully without any trouble whatever, the distance being about one mile. Last winter I used it at least once a week, and I have not had any regret about it. I continued using it through the hard winter, and today there is no broken piece in it. I consider the Owsenos wagon a most necessary piece of his equipment.

W. W. HICKS.

I have owned an Owsenos wagon seven years and never had any repairs worth doing on it during this time, not even had to cut the tires. I consider it the best wagon I ever owned and will stand by it.
