The New Media

The new form of advertising called radio, and in fact all of the media to come, seems to show the way for a new and different form of presentation.

The medium of radio is a powerful tool for reaching a mass audience. It is a powerful tool for reaching a mass audience. The ability to reach a large number of people quickly and efficiently makes it an attractive medium for advertisers.

In conclusion, radio is a powerful tool for reaching a mass audience. Its ability to reach a large number of people quickly and efficiently makes it an attractive medium for advertisers. However, as with any medium, there are also challenges and limitations to consider.

Mr. M. C. Hardy, who lives near Richmond, Ga., who has been successful in raising brown corn, is a regular customer of Mr. W. W. Black, at McElwee's store. He says the raising of brown corn is a very profitable business. The average product per acre is 700 bushels, and the market price per bushel is $1.50. When the market price reaches $1.50, he has found that the profit is larger than when the market price is lower. He recommends the planting of brown corn because of its high profit and its ability to withstand adverse conditions.

Rev. C. E. Holmstedt, who has been preaching in the country for many years, is one of our best preachers. He is a member of the Chester Baptist Union, and is very active in the work of the church. He has just erected a handsome monument in honor of the late president of the church, Mr. J. J. Clark. The monument is a fine addition to the church grounds, and is a fitting tribute to the memory of a man who was highly esteemed by all who knew him.

The Rev. H. C. Buchholz presided at the service, and there was good attendance. The choir sang "Nearer My God to Thee," and "Jesus Lover of My Soul." The sermon was delivered by Rev. E. T. Atkinson, T. B. McKeown.

The Rev. H. C. Buchholz presided. J. J. Stringfellow at the organ. The teacher, Mr. John T. Key, was present. The service was very much enjoyed by the congregation.

The Rev. E. T. Atkinson, T. B. McKeown.

At McElwee's school house last Friday, Mrs. Ross McFadden's last Friday. The teacher, Mr. John T. Key, was present. The service was very much enjoyed by the congregation.

We had a most delightful picnic in honor of the late president of the church, Mr. J. J. Clark. The picnic was held at McElwee's school house, and there was a large attendance. The weather was very pleasant, and the food was excellent. The day was spent in singing, praying, and enjoying the beautiful scenery around.

The Rev. E. T. Atkinson, T. B. McKeown.

Miss Adalize Thorn, of Chester, has been at Gibson, C., for three years. She is teaching school, and is very popular with the pupils and the parents. She is a very gifted young woman, and is a great asset to the school system.

Mr. and Mrs. Hugh White have returned from a visit to North Carolina. They were visiting Mr. and Mrs. W. E. White, of Columbia, and they spent the summer with their relatives. They are very happy to be back home, and they are looking forward to the fall term of school.

Miss Dollie Triplett, of Chester, has been at Gibson, C., for three years. She is teaching school, and is very popular with the pupils and the parents. She is a very gifted young woman, and is a great asset to the school system.

The plantation of Mrs. Fanny D. Brawn, of Chester, has just been visited by Mr. and Mrs. W. E. White. The plantation is a fine one, and is very successful in raising broom corn. Mrs. Brawn has just erected a handsome monument in honor of the late president of the church, Mr. J. J. Clark. The monument is a fine addition to the church grounds, and is a fitting tribute to the memory of a man who was highly esteemed by all who knew him.

The New Plan of Apprenticeship.-An important educational work for boys has been inaugurated at the Baldwin Locomotive Works in Philadelphia, by a re-institution of the old apprentice system under modern conditions. These boys, according to the published statement of the company, have the advantage of being taught the "art and mystery of a trade" by practical mechanics, and will be given every opportunity to study the science and theory of their respective departments. The company is determined to give an education to these apprentices that will make them good mechanics and skilled in their trades. The plan provided that the boys shall be kept in business, and that every member would serve two years, and that the studies are conducted in the evening. The boys are required to attend the school five nights a week, where the studies are given, and every other kind of blank is conducted. The instruction received by these boys will be of the highest order, and will give them a complete education in their respective trades.

Chamberlain's Cough Remedy A Great Favorite.-The soothing and healing properties of this medicine are well known. It has been much used by invalids of all ages, and has been highly recommended by physicians. It is particularly adapted for children, and has been found to be effective in the treatment of coughs, colds, and catarrh. It is sold by all druggists.
