"This well known trade mark is found on every genuine JUKER range, and guarantees that stove which has resulted from over 40 years experience in stove building.

When you buy a steel range figure on its lasting practically all our time. A little "foresight" will help you.

We Recommend Genuine Jewels because we can afford to—we know they are all right, and built to last. "Foresight" would suggest that no painted or enameled range could stand the heat, and you know what a fright a range looks when it chips and turns white, how hard it is to clean!

Jewels are made of Blue Planished Steel, the smooth kind.

Come see us all about ranges—we're enthusiastic about Jewels.

When You Buy FURNITURE

You must depend to a large extent on the honesty of the dealer.

BiSHARP WE ARE NOT ANGELS (If we were we would be out of business) but whatever you buy of us must be as we represent it to you you get your money back. In all the years that we have been selling goods to the people we have not had one person to say we cheated them or misrepresented our goods. WE NEVER MAKE A STATEMENT WE CAN'T BACK UP and we want to make one right now.

We Can Save You One-Fourth on Your Furniture Purchases.

Come to see us. Get our prices and let us show you how we get goods at such a big discount below competitors. There is a way to prove our statement too: Compare our prices with those of our competitors. See, for example, the following:

EXAMPLE: Man came in our store the other day, said he wanted some furniture, picked out a lot, was fifty dollars; was surprised and said: "Why, that bill was a duplicate of a list (had picked out i Furniture Store down street only your goods are much newer and they want for seventy odd dollars." He had made hearty deals kept in just a few minutes. We have his name if you want to know also that of others who have had similar experiences. Moral is shown in our illustration.
