Of course, a good many people are shocked at the appearance of certain outlandish styles which is not good form as fulfill; program realized; military; permission; program. But it would be only right to express a hope that the public would be liberal in its view of these new forms. Most people are surprised to see that editors have been such strong advocates of the new spelling. He says: "Mr. mother, who Chicago tells of a way to become an average wearer. So it will be with appearance of certain outlandish styles."

FRIDAY. JULY 1, 187...

The small Johnson county council has been voting generously. The prevailing sentiment is in favor of the proposition of the county commissioners.

The question is whether to authorize the county commissioners to borrow $10,000 for the purpose of purchasing a new engine for the county's fire department.

The purpose of the loan is to enable the county to purchase a new engine, which would replace an old and inefficient one. The county commissioners believe that the new engine would be a significant improvement in the department's ability to provide fire protection.

The council has allocated funds for this purpose, and it is hoped that the new engine will be in service within the next few months.

The council's approval of the loan demonstrates its commitment to providing adequate fire protection for the county. It is an important step in ensuring the safety and well-being of the county's residents.

The council also approved a resolution expressing its support for the deputation to the state legislature on matters related to county government.

The deputation, which includes representatives from various counties, will present the council's recommendations to the legislature with the goal of improving the efficiency and effectiveness of county government.

The council believes that the deputation's efforts will help to streamline the county's operations and reduce costs, ultimately benefiting the county's residents.
