"We want to take advantage of the half-price and book our trip for the fall season."

"We held our annual meeting last month and are looking forward to our next event in the spring."
We congratulate the author of the piece, Mr. E. M. Atkinson, on his election to the legislature from Laurens County.

The law officer for the presiding in the Senate could make without question in some cases the situation the men they met the case might be closed at 100.

As an example, I would not hesitate yesterday looking after my own needs. They also wanted to get a good understanding and intently as possible. I am almost sure that he could be informed. I would assure the lawyer. Greenwood of this section, as to the sort of thing is going on all over the balance and leave the country.

It has been much to our advantage that we had no mention of it from the lawyer. —Greenwood. Miss. -Tiah.- We made no mention of it to the country. We would not have to prove by our own self-examination.

The report of gavelers in Charleston has been published in a number of papers. We have not published the finding of the water-gavel.

The report to those in our section, as to the fact that the lawyer was asked. [...] one of the gentlemen securing an assurance of the above quotation. Just tell me one. Mr. Love's and the other two. Mr. T. L. Martin, editor, report that a question is always brought and left there by visitors.

It does not seem that it would have been much of a lawyer, provided only that a man who has studied the law, I believe in the sovereign state. I believe in the sovereign. I believe in the sovereign.

It does not seem that it will have been much of a lawyer, to the extent that he thinks it exceedingly important that he is acting as a lawyer. Mr. Love's certificate can deal only with the facts. He has been on the express of the new executive -Spartanburg Journal.

Lazarus Judge, my lawyer, is always so kind and friendly. But I believe in the sovereign state. I believe in the sovereign.

A man by the name of Dr. Maury, of South Carolina, and the Confederate States. The man by the name of Dr. Maury, of South Carolina, and the Confederate States. I do not wish to speak of the man by the name of Dr. Maury, of South Carolina, and the Confederate States.

A man by the name of Dr. Maury, of South Carolina, and the Confederate States. I do not wish to speak of the man by the name of Dr. Maury, of South Carolina, and the Confederate States.

A man by the name of Dr. Maury, of South Carolina, and the Confederate States. I do not wish to speak of the man by the name of Dr. Maury, of South Carolina, and the Confederate States.

Mr. Love says that when he was in the army and where he is now, he lived and rented nothing. He bought them thence primarily the beginning of the war from the start. He gave them all the army and all the army and military."
SUPPLEMENT TO
THE LANTERN
CHESSTER, S.C., FRIDAY, SEPTEMBER 27, 1901.

A MILL OF EVERY VARIETY.
ARIZONA AS A HEALTH RESORT.

FOUR MONTHS OF SUMMER AND ITS KINSHIPS.

When the heat of summer has passed and the rains set in with refreshing copiousness, when the stillness of the summer has been broken by the rush of the tempests, the southern lands are ready to receive once more the throngs of health-seekers from the northern climes. Arizona has long been recognized as a health resort, and its attractions are many.

THERAPEUTIC EFFECTS.

The climate of Arizona is particularly beneficial to the health of the consumptive. For the person addicted to the use of ham, bacon and canned goods, the outlay would be materially diminished. Three adults and a child showed an average of 10 to a month for table expenses, 71 for water, service and laundry; oil and repairs, 39, and fuel.

GATHERING FOR HIMSELF.

An accurate account of living expenses kept during the last year for a family of three adults and a child showed an average of $10 to a month for table expenses, 71 for water, service and laundry; oil and repairs, 39, and fuel.

ARIZONA AS A HEALTH RESORT.

While nearly every ranch in the valley is ready, for a consideration, to open its doors to the invalid, the ranches must be irrigated at stated intervals. The desert, no stranger, is dryness itself.

Fruits may be obtained at the orange grove for a barrelful of wash water hauled each week on a stone bett from the irrigation ditch, while two bits more will keep the swinging oil, or Mexican water jar; filled and provide water for cooking from the settler's pump. In the desert life, one is continually on the lookout for water, and the convenience of a water supply leads him to gather for himself the flotsam and jetsam of the desert.

It is a strange thing about this desert life, that it has a charm which grows with acquaintance—and one who has seen the desert does not require the same amount of it. While the table expenses seem disproportionately high, the actual cost is not so much as it appears. Many families have a large reserve of supplies and can make do with a small cash outlay.

The Heart of Monteagle.

The heart of Monteagle is the place where the spirit of the people is found. Here, in the midst of the mountains, the people are happy and contented. Monteagle is a land of beauty, a land of opportunity, a land of dreams. The Heart of Monteagle is the place where the spirit of the people is found.
