The Boys are now singing about dark, after having been very hungry and tired, then breakfasted on the ground with our tents. All the boys are well except those who have had a chilly afternoon yesterday. As we hear very little about what we are to do. The south west part of Virginia is very hot and rough, as was mentioned in a former paper, it is still very hot. It is reported in camp that it will rain, which will give us a big "bowl" on Tuesday next. We shall be glad to go to Washington on Saturday.

In House of Miss Cantral

Last Friday evening Mr Louis Louche, a member of the Committee on the John Marshall U.S. Literary Society decided to call a young lady's corsage of his hand on us at a party that was to be given at one of the finest of the society's members.

GRADUAL DECLINE

This is the fate of sufferers from Kidney trouble, as the disease is so insidious that often people have been suffering without knowing the real cause of their illness, and thus delays allow the impurities to stay in the system and attack the other organs. This accounts for the many different systems of treatment for Kidney trouble.

You begin to feel better at once when taking

FOLEY'S KIDNEY CURE

as it stimulates the heart, increases the circulation and invigorates the whole system. It strengthens the primary organs and gives your new life and vigor.
