GREEK SITUATION A MYSTERY

PENROSE AND STONE IN TILT CALLED OFF

of tick eradication and in spreading interest and information among farmers and cattlemen. As a result of the operation of all these forces, the work of tick eradication practically has been half completed.

On July 1, 1916, there had been freed from ticks 284,521 square miles of the original quarantined area of 728,543 square miles. It is estimated that by next December 60,000 additional square miles will be freed.

Of the Mexican commission and the representatives of the United States appointed by the representative Government to settle the difference between the two countries were in this city tonight, preparing to their departure for New London, Conn., on Tuesday or Wednesday, for joint conferences, at a place yet undetermined. The party leaving here will consist of 28 persons, all of whom will embark on the presidential yacht Mayflower, from which, it could be more easily supplied by no other from Piraeus than from Salamis. Should this action prove to be of military value to the Entente Powers, it is understood, will not object.

New York, Sept. 3—Another decrease in the number of new cases of infantile paralysis was reported today by the Department of Health for being only 51 new cases, compared with 61 the previous day. There were 19 deaths, the same number as on the preceding day. Since the beginning of the epidemic there have been 8,199 cases and 1,987 deaths.

BUILDING BOOM HAS STARTED AT FT. MILL

Fort Mill, S.C.—Sept. 1.—The Fort Mill Lumber Co. has been awarded a contract for the erection of 66 cottages at two cotton mills here by the Fort Mill Manufacturing Co. The work of construction to begin at once to care for the additional labor.

MEN'S Shirts
Klutz Department Store has received its Fall and Winter Shipments of Men's Shirts. This is the guaranteed shirt. The wearers pronounce the "best shirt on the market. It won't fade. It's shrink proof. The colors are fast. The shirt is full made. There isn't a weak spot about an "a." The men of Chester are rapidly learning that it pays to wear an "a" shirt. We invite you in to see Klutz new stock of "a" Shirts.

KLUZT DEPARTMENT STORE
NOW IS THE TIME TO SOW CELERY SEED

NOW is the time to sow celery seed. Early sowing will enable the crop to be ready for harvesting well before the first killing frost. Celery is a hardy biennial and is grown for its succulent, leafy greens. It is a cool-weather crop that thrives in well-drained soil. Celery can be used fresh, as a vegetable, or dried. Drying is a common practice for celery, allowing for the storage of the crop for use throughout the year. Celery is a good source of vitamins A and C and is popular in salads, soups, and as a snack. For best results, follow local gardening guidelines for celery cultivation.
