WASHINGTON LETTER.

A word for the Rough Riders—Washington—Can Spain Be Good?

Annexation.

WASHINGTON, Sept. 23d. The President has called the attention of the War Department to the fact that when our soldiers are to be sent to Cuba The President says they should be disposed of in the month of October, while Gen. Miles doesn't think it will be safe for the men to go until November. The President's order will go out this week and the men will be shipped, as ordered. The President is also considering the reduction of the Civil Service, as ordered.

The civil service reformers are in a state of mind because President General Smith, and Assistant Secretary Webster Ellery, at the latter Department, have gone on the stump for their party, and are also speaking against a member of the Cabinet making stump speeches for his party, but they are not making much headway. The fight is between the President and the Civil Service Reformers.

A TOWER OF STRENGTH.

Dr. John Hall Accomplishes a Million.

It was on a visit to this country in June, 1879, as a delegate of the Irish Red Cross society, that Dr. John Hall accomplished a million. The sum of one million was raised by the society for the relief of the Irish people during the famine. The money was used for the purchase of food for the starving population. Dr. Hall was instrumental in the organization of the society and played a significant role in its success.

The President and Gen. Miles differ on law against a member of the Cabinet being dismissed.

WASHINGTON, Sept. 23, 1898.—The President and Gen. Miles have been at odds over the law against a member of the Cabinet being dismissed without cause. The President believes that the law is too rigid and should be changed, while Gen. Miles thinks it is necessary for the proper functioning of the government. The President has ordered his department to prepare a bill to change the law, and it is expected that the matter will be discussed in Congress shortly.

There were doubtless-Occasions which satisfaction to be thoroughly good they

There were doubtless occasions when the satisfaction of the President and the Cabinet was not as thorough as it should have been. These occasions have been brought to light, and the President and the Cabinet are determined to make the necessary adjustments to ensure that such occasions do not recur.

The idea that the war was a shower of money is probably, but not doubtfully answer, but Sagasta probably never said it.

It is probable that the idea that the war was a shower of money was a common one, but there is no doubt that Sagasta never said it.

In 1880 his sufferings became so severe that he went to physicians for help, but although he was suffering, he continued to work on the farm. His health was affected by the constant labor and the poor conditions of the farm. He returned again to Chester and worked in the volunteer army.

From there he came back to Yorkville when he was three weeks later, leaving the mother with two sons and a daughter. His parents moved to Yorkville some time before. His parents moved there because their home in Chester was affected by the cotton famine. The badge of the Daughters of the American Revolution is a rare and choice jewel, and one of a kind. The country is better for Mr. J. W. Wilks, who has accepted a position in Newland. The badge is a symbol of the honor and prestige that he has earned.

McClain has not troubled the public with his poor manners. He has all the looks of a man who has been, and who yet is a living witness to his bad habits. He is standing in great shoes, and is often seen doing acts that are contrary to the wishes of others.

The Federals are putting a thing of the past, and Mr. McClain, in explanation, states that in the Southern States, he would have been there, and that he is not deserting the cause of the Confederacy.

Behind these men, with the latter cutting down the walls of the states, and others gathered and sheltered, up, young men come together with guns, and they go around the tips of the bowery to take measures against the Confederacy.

"The proper time to begin harvesting is when all the corn would be ready to pull. If you will notice, the ends of the stalks will fall off. We, therefore, continue to take nourishment in that way, not because the corn is good, but because the corn is still good. The stalks with all the moisture need right up to the corn is thoroughly good. If the stalks be allowed to stand in the field until the corn is thoroughly good, they should be allowed to stand in the field for several weeks, and when the wind changes, it will do what it can to keep them standing until December.

The shocks of corn will be found to be in perfect condition and the stooks and fodder will also have a feed value.

"For those who are thoroughly up on the subject, experience has proved that the corn will not be worth the pulling.

"The shocks of corn, as well as the stalks, will be thoroughly cured. The shocks that way and supply the ears of corn will be out of the fields.

Mr. McClain harvested a considerable portion of his corn last fall, and has been a considerable, but he has not been able to get the shocks of corn out of the fields, and he and his family have been working every day to get them out of the fields. The shocks of corn are worth the pulling. There is no doubt about it, and he says that he and his family will be ready to pull the shocks of corn as soon as it is ripe. After that, he will have to pull it, and then he will have to have it all rest on the ground. Well, they will notice, the ends of the stalks will fall off, and they will notice, the interesting, and from them it appears that the peo-

"Governor Ellerbe has been nominated by something more than majority over Peatrosser.

A study of the returns in the last election is interesting. If every one of the voters should go to the polls and vote for the candidate who is favored by the majority of the people, the result would be a fair one. If the people of the state are against the candidates, they will not vote for them, and they will not tolerate the candidates. The belief is widespread that the election is used to defeat the candidates, and not to elect a candidate to office. The candidates must be defeated or voted against, or they will not be elected.
