DEMONSTRATION MEETINGS IN COUNTY THIS WEEK

I am planning to have a number of meetings in the County this week, at this time Miss Martha Creighton, the Lancaster County Home Demonstration Agent, will be with me and we will give demonstrations in bread making, light bread, rolls, and biscuits. Everyone is invited to attend these meetings and share refreshments. The schedule for the meetings is as follows:

- Armbrum—Monday, September 11; at 3 o'clock. School house.
- Cornwell—Tuesday, September 12; at 3 o'clock. School house.
- Bascamville—Wednesday, September 13; at 10 o'clock. School house.
- Fort Lam—Wednesday, September 13; at 3 o'clock. School house.
- Pleasant Grove—Thursday, September 14; at 3 o'clock. Mrs. Jim Reid.
- Wilksburg—Friday, September 15; at 10 o'clock. School house.
- Baton Rouge—Friday, September 15; at 3 o'clock. School house.

JO YABBOROUGH, County Home Demonstration Agent

TEACHING CITIZENS WHAT IS CITIZENSHIP

Washington, D.C., Sept. 9—The nationwide campaign of citizenship preparedness which the public schools in all over the country inaugurated last year in conjunction with the bureau of naturalization is being varied-for with renewed energy and activity by these governmental agencies. The public schools throughout the country, in larger number than last year, are now in cooperation with the bureau of naturalization, and have assured greater conveniences, and better advantages and opportunities for the foreign friend who desires to become an American citizen.

The efforts of the bureau are being directed primarily to the public schools in approximately 650 cities and towns which have already signed their intent for participating in this cooperative work. As their number will be largely increased before the opening of school, it is apparent that the coming school year will be one of far-reaching importance and benefit. Promises on the part of the public school authorities have been received in such increasing numbers that the work of citizenship preparedness will be extended to every state of the Union with the opening of the new school year.

ITALY RAISES RATES TO PAY WAGE BOOST

Rome, Sept. 7—Railroad freight rates in Italy have been raised 10 per cent and it is estimated that government revenues will be increased $3,000,000 annually. The object in raising the rates was to secure money to pay extra wages of railway employees totaling $4,000,000, which were granted recently following complaints of the men of the high cost of living and extra work, entailed by reason of the war.

The newspapers are urging the extra wages as the wages of railroad employees have been increased step by step.

STOCKHOLDERS TALK OF YORK COUNTY FAIR

The regular meeting of the Board of Directors of the York County Fair was held in the assembly room of the Chamber of Commerce Thursday afternoon.

Mr. J. J. McLure, on Pinckney Island, Ky., is visiting the family of Mr. and Mrs. W. H. Weir.

The General Session was held at 3 o’clock, and there was a large attendance.

The following were elected as officers of the Executive Committee:

Mr. W. H. Weir was awarded the prize September 9th.

Mr. A. H. Cooper, of York, died at his home there November 14th, age 64 years.

At an early date petitions will be circulated for another vote in order to incorporate the present city and build a new city hall.

The city council has passed an ordinance requiring all property owners to maintain their property in a state of repair.

An amendment to the city code has been approved which will allow for the construction of new homes and businesses.

Mrs. John Brown, who has been residing in the city for many years, has decided to move to the suburbs to be closer to her family.

Mr. and Mrs. Brown spent the weekend at their cottage in the country, enjoying the beautiful fall weather.

A beautiful line of women's shoes has just arrived at the S. M. Jones Company.

Get the Habit of Clothes Economy

Sacrificing distinctive style or good service to meet a price is false economy.

Disregard of price to indulge your- self in so-called "high-priced" clothes is false extravagance.

Value is the only true basis of judicious buying. Value can only be measured by the actual clothes service you receive, providing that clothes service includes correct style, permanent tailoring and lasting satisfaction.

Value is economy and economy is price modification.

All that constitutes true value, true economy and true clothes service is safely assured in Grifton Clothes from $15.00 to $25.00.

Ordinary, Order I. the earth; 2. that it is not

in the air; 3. that it be

in the plants; 4. that it be

in the soil. In the order to be referred to is: 1. plants that

are exposed to the cold; 2. plants that are exposed to the

heat; 3. plants that are exposed to the wind; 4. plants

that are exposed to the moisture. The important element of

plant growth is water. Burns has given us a valuable

material in the air, which is probably the original moisture

in the earth, and is essential to life.

When we talk about the climate, we mean the season of

the year and the conditions under which the plants grow.

They are usually produced by human beings and

industrial practices. In the past, they have been

produced by animal life and the weather. In the future,

they will be produced by artificial means and

commercial practices. Plants are usually cultivated for

food, and to a lesser extent for their decorative quality.

Plants can be divided into two classes: the

vegetables and the fruits. The vegetables

are grown for their edible parts, and the

fruits are grown for their seed parts.

The vegetables are usually

classified into three groups: the

root vegetables, the

stem vegetables, and the

leaf vegetables. The

root vegetables

are usually
