WASHINGTON LETTER.

From our Regular Correspondent.

Washington, October 3.—The presence of the representative of Aguinaldo, the Filipino insurgent, at the White House, and of his friend, Mr. Buesa, the Spanish minister, has caused a triple yellow fever to break out in Washington. These two men, along with the Philippine minister, have caused a sensation in the capital.

This evening, the presence of the two men at the White House will be considered the beginning of a new era in the relations between the United States and the Philippines.

The President of the United States troops must be recognized as the representative of the Filipino insurgents, regardless of his position.

Mr. Chandler, the Secretary of State, has not yet been able to do this, but he cannot get rid of him, even if he tries. He has no other choice but to recognize the Filipino insurgents as the representatives of the Filipino people.

The Secretary of State is in bed tonight with a high temperature, and he is unable to perform his duties.

Mr. Chandler has promised to make a trip north this week to investigate the situation.

In a recent issue of the New York Times, the following article appeared: "The many times that F. W. Gregory is glad to welcome them to his shop, he has been called 'The Man of the House.' For Primary.

E. S. D. Thomas.

Editor of the Lander:

In your last issue we notice that the executive committee of Charleston county has adopted the system of the special examination for the next term. You say some are in favor of a special examination, others say a primary. We are not posted in the law about the system, but we feel that we are against it. The executive committee of Charleston county, therefore, think that the correct manner of examination is to have a primary committee of examination, and that if the proper time it is the opinion of the committee that it is the proper time.
