Canons Recently Related by the Episcopal Church... The rejection of the proposed marriage of a clergyman with another clergyman and the decision of the General Convention, after they had been adopted by the bishops, was of course the conclusion of a public and private controversy between a Rabbi and a Churchman. The controversy was unique in the history of the Church, and it is well to remember that the opposition of the Church to the marriage was not based on any foundation of religious principle. That is, the change made in the Church by the marriage was not opposed to any foundation of religious principle.
