Bill Ay in the State of the Power-Day—The Different Kinds of Public Men.

We are not interested at the present time in all the small happens in the different States and towns. The great majority of the people go about their business in the quiet way, and we are not interested in the petty local news. Some of the States are no longer under the control of the Federal Government, and they have been left to themselves to govern themselves. They do not want any interference from the Federal Government, and they are content to govern themselves as they please.

Some States have been left to themselves to govern themselves, and they have been left to themselves to govern themselves as they please. They do not want any interference from the Federal Government, and they are content to govern themselves as they please.

China Pulpwood.

Dr. J. E. Byrd, superintendent of our Chinese pulpwood, has presented us with some pulpwood from that country this week. When they have a Chinese pulpwood market, they are sold by the pound, while cotton is sold by the bale. They are said to be better than the cotton for a variety of purposes. We have been told that there were about 50,000 bales of cotton and 1,000 bales of pulpwood. Some bedding and furniture were sold for the same price as in Richmond. We have heard that there was a large demand for the pulpwood and rice in the city.
