NEW GEORGIA PROPOSED FOR COLUMBIA, N. C.

HABITUAL ASSASSINS WANT TO CREATE A NEW STATE

Charlotte, Oct. 26—Ravaging through the South, a bill has been introduced in the South Carolina Legislature that would create a new state, geographically divided from the existing states, to be called New Georgia.

The bill, introduced by Mr. Smith, a member of the House of Representatives, proposes the following changes:

1. The new state would be created by the union of the counties of Dorchester, Fairfield, and Charleston.
2. The capital of the new state would be Columbia, the present capital of South Carolina.
3. The new state would encompass an area of approximately 10,000 square miles.
4. The new state would be governed by a constitution and laws similar to those of South Carolina.

The bill is expected to be debated in the House and Senate in the coming session.

There is much being written and said on the subject of the liquor and the latter day prohibitionists. We believe that the protest is not made with the idea of stopping the sale of liquor, but rather in the purpose of keeping our children and young people from being led astray. We believe that the temperance movement is for the benefit of all classes of people and not to the detriment of any particular group.

Mr. Hughes has been a strong advocate of the temperance movement in this state and has worked hard to bring about a better understanding between those who are for prohibition and those who are against it. He has always been a good example to follow and we believe that his influence will continue to be felt in the future.

We have heard that this movement is not making much progress in Chester, but we believe that it is only a matter of time before the people here see the wisdom of following the lead of those who are working for the betterment of our community.

The gallon-a-month law seems to be meeting with little opposition here. We understand that there are only a few people who are against it and they are the ones who do not believe in the temperance movement.

We believe that the best way to deal with this problem is to educate people about the dangers of liquor and to show them that there are better ways of spending their money. We believe that if people are given the facts about the liquor question, they will make the right decision for themselves.

We have heard that the tobacco business is threatened by this movement, but we believe that it is only a matter of time before the people here see the wisdom of following the lead of those who are working for the betterment of our community.

We believe that the best way to deal with this problem is to educate people about the dangers of tobacco and to show them that there are better ways of spending their money. We believe that if people are given the facts about the tobacco question, they will make the right decision for themselves.

We have heard that the coal business is threatened by this movement, but we believe that it is only a matter of time before the people here see the wisdom of following the lead of those who are working for the betterment of our community.

THE BIG STORE

We're Showing The Best Line We Ever Had.

The Most Attractive - The Best Tailored - The Best-Styled.

Any one who takes ordinarily but a passing interest in "Ready" clothes, and maybe thinks of them as they were ten or twenty years ago, should have a good look at the clothes we're showing now. The difference will astonish you. Clothes making skill has progressed so marvelously. Even the near "live today" is better than the old time costly car. So, with ready-made garments, they're truly tremendously. Look over our new models. Try on a coat or two, your size, and see if any of our men to slip one on. Note the "hang," the contour, the general effect. Observe the perfect "back," the smooth-setting collar—the graceful curves of the naturally shaped shoulders, the "just right" front lapels, button spacing and pockets. We'll be glad to show you through.
