Cotton Crop of South Carolina
At a meeting of a committee of seven of the members of the South Carolina state legislature, held in Columbia on the 28th of October, a resolution was adopted to request the United States government to make an investigation of the condition of the cotton crop of South Carolina. This resolution was adopted by the majority of the members present, and was presented to the governor of South Carolina, in whose hands it was left for the time being.

The Cotton Crop of South Carolina

The cotton crop of South Carolina is in a very serious condition. The state is suffering from a severe drought, and the cotton plants are withering and dying. The state is also suffering from a severe pestilence, which is destroying the cotton plants. The state is in a very serious condition, and the people of South Carolina are suffering greatly.

A striking feature of the present season is the increase in the number of people who are using the new sulphur. The sulphur is a powerful disinfectant, and is used extensively in hospitals and medical institutions. It is also used in the treatment of the common cold and cough, and is found to be very effective.

Modern Science Triumphs

Chemists Astonished! Doctors Amazed!

Everyone recognizes the sulphur and removes it with ease. You hated the time, but then you had to take a walk to get any benefit, because very little could it get into your blood and brain. Now, at last, a chemist has found a way to rapidly take it in, so that it is quickly absorbed by the skin and blood. This marvelous discovery is called
