ASKING YOU TO PAY MORE WOULD GIVE YOU MORE

An important matter that won't be of much comfort to the public is that, while the Chandlcr company makes the car better than ever before, and at a price which will add to the public's comfort, the price of the car will be higher.

The definite Chandlcr policy, consistently followed throughout the history of the Chandlcr Company, keeps Chandlcr cars highest, Chandler prices lower.

No other car selling for less than $3000 offers so many desirable high-grade features of design and construction:

Roch Highland Magneto.

Brakes, as well as electric motor, are extending from frame to frame.

And the famous Chandlcr motor, for its fifth year now, refined as much as in the past, has not been radicalized, but is as close to the perfection of all cars.

The Chandlcr has passed and left behind a long list of other makes of cars because it does give as much more for an equal price as the others.

Some of the best of the early days, the 1908 model, is a recent addition to the list of cars which are available now. This makes it possible to offer a car with a high motor, a high gear, and a high price.

 annotations: According to the best information we have, the price of this car is not going to change. So, if you are looking for a car for the upcoming season, come to Chandler Six, the car that is not too high, but not too low, and that is not too fast, but not too slow, and that is not too much, but not too little.
