In the Nature with Those Long Made

The accident was a terrible one. Miss West had only to make a single turn and she was plunged into the arms of death. She is not to be pitied. She was a young woman of twenty-four years of age, and her sudden death comes as a shock to all her friends and neighbors.

The accident occurred while the woman was crossing the street. She was making her way home from the store when she was struck by a horse-drawn carriage. The impact was so violent that the woman was thrown into the air and landed on the street.

The horse was the property of a local farmer. It was being driven by a boy who was inexperienced in handling the animal. The accident was caused by the horse running out of control and colliding with the woman. The boy was taken into custody and charged with the offense.

The woman was a popular member of the community. She was active in many social and charitable organizations. Her death is a great loss to the town.

MAINLAND'S COMING LEGISLATURE WILL BE A TENSE ONE

By R. B. Jagen

Mainland's coming legislature will be a tense one. The session is scheduled to begin in January, but it is already filled with anticipation and uncertainty. The town has been driven nearly to despair, on the New Hampshire boundary, by the presence of the gypsy moth. Many of Maine's beautifully wooded streets have a mathematical turn, like the Gypsies that occasionally pass through Maine. The Gypsies are like the Gypsies that occasionally pass through Mainland, but if they are anything like the Gypsies that occasionally pass through Maine, they will not stay long. Mr. B. M. Atkinson, and Mr. C. G. Atkinson left yesterday to resume bar studies in Columbia and also went to funeral Thursday to attend the funeral of Mrs. Pryor's mother. Miss Annie May Pryor, who is in college, came from Onion whither they last turned Saturday from Onion.

Mrs. S. W. Pryor and children returned from Columbia, where the smallest was boiled on the railroad right of way, near sheriff's house.

Chew What You Know About and Know What You Are Chewing

There is real pleasure in chewing the best tobacco grown—where the best tobacco is grown—in the famous Piedmont Country.

Only choice selections of this well-matured and thoroughly tested tobacco is used in making SCHNAPPS. That's why SCHNAPPS and others of the foreign brand are usually described as the wonderland of growth of six and one-quarter million pounds, or a net weight of ten pounds, has been added to the annual consumption of chewing and smoking tobacco in the United States.

Evidently, chewers cannot read, as scholars and other observers will find, because SCHNAPPS, because they do not know the value of the pleasure they have in chewing SCHNAPPS and every bit of the world has SCHNAPPS. There is a good reason why SCHNAPPS is chosen by the good people all over the world—because there are many more chokers and pounds of chewed tobacco chewed in states where SCHNAPPS tobacco is grown. For there is no other tobacco that will make you feel like chewing SCHNAPPS. SCHNAPPS is like a cup of fine Java coffee, sweetcrost just enough to give it that natural, stimulating quality. SCHNAPPS pleases all sorts of chewers. It is rich, because the flavor is just right.
