Chester, S. C.

This is a letter from Chester Wholesale Grocery Co. about selling goods cheaper than competitors. They are continually raising the cotton seed market, but are now building the market themselves. This may all be true, but we cannot see how this will hurt our customers or ourselves.

An Explanation

What the Merchants Say About Chester Wholesale Grocery Company.

They sell goods so cheap; they are continually raising the cotton seed market; they are now building the market themselves. This may all be true, but we cannot see how this will hurt our customers or ourselves.

We will sell bagging and tires cheaper than any in one in Chester. We carry almost everything. We want every buyer to investigate these charges and if true, save money on what you buy. We will guarantee everything as represented or money refunded.

The following is a continuation of the article about the demand for goods in the cotton market:

The demand for goods is high, and the merchants say they are doing a good business. The cotton market is booming, and the prices are rising. This is good news for the merchants, but it also means that the prices we pay for goods will increase.
