A Sense of Deep Feeling

That dwelling in the most important part of the world is not a place of peace and quiet, but of constant motion and change. The world is always in flux, and the people who live in it are always changing with it. The effects of this can be seen in the constant flow of people in and out of the city, and the constant changes in the landscape.

ANNOUNCEMENT

I have the honor to announce to The Lindsay Winter Missions Committee that I have held a number of public and private meetings with Frank Frank, who will start from here on the 12th inst., with the object of organizing a Mission Committee among the colored people.

The finances of the Mission will be increased, as the Rev. W. J. Fielding reported, and the Rev. J. B. Smith of the North Carolina Mission, who was at this place, was present at the meeting, and will visit the Mission here, and we hope to have a better Mission here than ever before.

The Rev. G. H. Martin of the Mission said that he had attended all the meetings and was satisfied that the Mission was well organized, and that the Rev. J. B. Smith of the North Carolina Mission was present at the meeting, and will visit the Mission here, and we hope to have a better Mission here than ever before.

FALL PLOWING.

Position is general that fall plowing
should be practiced where possible. But
it must be said that there are many
localities where the climate does not
make it possible to plow the land
and prepare it for immediate spring
sowing. In such cases the process
should be postponed until the spring
of the following year.

IT'S UP TO YOU

Our plan is to make every piece of
printing which is turned out of this
office a good advertisement for us, and
for the very reason
we never allow a piece of work to
be done until it is exactly
and correctly done.

It is a certainty that you will get a
piece of work if you should decide
on the excellence of our work,
and that you will be satisfied
with it.

If you ever have a
difficult piece of
work to do, we promise to
get it out of the
job in a hurry.

PUT IT UP TO US

INDIVIDUALITY—You agree with us
that your printing makes the people
you want to influence.

It may be the selling of your goods,
which by so many small agencies
and means you will be
a success. If you
agree with us
and are ready to
accept the
sample, let us
know, and we
will be glad to
send it to you.
