President Grover Cleveland.

Washington, Nov. 23.--The present administration has been criticized for the manner in which it has handled public business. The President, in his reply to the speech of the Speaker of the House, has said that the government is in a state of near bankruptcy, and that the situation is not as serious as it was in the past. The President also stated that the government has been unable to meet its obligations due to the lack of funds. He added that the government has been forced to resort to extraordinary measures to meet its obligations.

The legislative committee of the Republican party, headed by Senator Farnsworth, is expected to meet this week to consider the situation. The committee is expected to recommend plans for the future of the government, including a plan for the taxation of the country.

The President also stated that the government is in a state of near bankruptcy.
