The New Arlington Shipyard will Be Forwarded With 12 of Naval Dreadnoughts. These British Dreadnoughts are just now the largest in the world, as they have a tonnage of 30,500 and a displacement of 33,000 tons. The New Arlington Shipyard is to be completed in about five months, and the British Government has already placed an order for 12 of these Dreadnoughts. Children Cry for Fletcher's

What is Castoria?

Castoria is a harmless substitute for Castor Oil, possessing all the virtues of that celebrated medicine, but without its unpleasant properties.

It is obtained from the Balsam of Chronium, which is a resinous substance found in the bark of the Chronium tree. The tree is native to the Levant and parts of Africa.

The resin is extracted from the bark and then distilled to remove impurities. The resulting substance is then further purified and refined to produce Castoria.

For Christmas

The man who thinks he has no chance is always the man without money in the bank.

He has wrecked the Reckoner from the deck, shook his ears with an alarm bell, and killed 45 of his own people. The mouse has made the man who is without money in the bank.

The man with money in the bank always has the fattening out for opportunity. Come and call it in 31-2 Gadsden Street.

WHAT CAN YOU DO FOR CATARRH?

Ask yourself the question. How slow has the doctor failed, how late has the neighbor failed, how seldom has the medicine failed? What you should do.

The cure, remember, consists in removing the cause of the irritation—alcohol, tobacco, or strong food. A failing that is brought on by diet, must be prevented by diet. The cure is always slow, and always sure. A dose of Castoria will not cure catarrh as you suppose. It is not a medicine, but a preparation of Castor Oil in a pleasant form. Castoria is a medicine, Castoria is a medicine.
