SUNDAY SCHOOL.
THE INTERNATIONAL SERIES.

For many years the subject of the International Series has been the salvation of the world. The principles involved in this movement are so vast and so important, that it is no wonder that the leaders of nations and the heads of the churches have made a special effort to study the problems involved. The purpose of the International Series is to bring the world's religions into harmony, and to promote the welfare of the peoples of the world. The series is composed of four lessons, each dealing with a different aspect of the International problem. The lessons are written by some of the most prominent religious leaders of the world, and are designed to appeal to the minds of all who are interested in the promotion of world peace and harmony. The series is published by the International Series Committee, and is distributed free of charge to all who request it.
