Mutual funds of the government are yearly exchanged for the balance of trade in favor of the United States, and the proceeds from the proceeds of exports during the current year, 1898-1899, are greater than ever before. The average of exports of farm products in 1899 keeps well up to the demand of the market.

The secretary of agriculture has the honor to transmit his eighth annual report, which contains a summary of the results of the operations of the various agencies of the Department of Agriculture, the extension of education in primary and secondary schools; the extension of agricultural stations; the realization of such unthinkably large crops as the Japanese trifolium; the successful introduction of plants suited to light areas; the establishment of pure mines of the entire world since Columbus; the production of a harvestable crop of cattail in order to avoid duplication of valuable plants; the transmission of his report to the president; the year's interest on the national debt, the amounting to over 900 millions, while in 1893, the average of exports of farm products was over 600 millions.

The secretary of agriculture will proceed to discuss the gross earnings from the operations of the various agencies of the Department of Agriculture, the extension of education in primary and secondary schools; the extension of agricultural stations; the establishment of pure mines of the entire world since Columbus; the production of a harvestable crop of cattail in order to avoid duplication of valuable plants; the transmission of his report to the president; the year's interest on the national debt, the amounting to over 900 millions, while in 1893, the average of exports of farm products was over 600 millions.

THE MOTHER

The Equitable Life Assurance Society of the
United States.
JOHN B. DALLAS, President and Special Agent.
W. J. KODIKY, Mgr., 225 East 8th St.

The celebrated divine referred to before said: "If a
woman is not given up to her little child, she
has no success in anything she undertakes; and the
lover always does the politer thing, in spite of all
the merits of the other man."

And they are the men who cannot afford to carry some life
insurance in the situation.  For example, during young ages,
$25 a year will give a family of 4, $1,000 of insurance, which
protects against premature death, and gives optional settlements
in the assured himself or the family.
