Education

Naval scholarships.

Naval scholarships awarded by naval academy to those students who shall, at the end of the year, stand highest in marine science and engineering, and be found to be fit for service in the navy. The amount given in each case is determined by the captain of the ship to which the applicant is assigned.

Cotton Seed

On account of the many damaged seeds the grade of this article has been very low. We have just received a shipment of very high grade meal and it is worth the money.

THE GLITTERING ATTRACTIONS

At Our Store this Week has Arrived
"THE FURNITURE FEVER" Throughout the Whole Country.

The high-class of goods we carry and the strong guarantee that is behind every piece of goods we sell, makes us proud of the reputation we bear. We want to be the first Mahogany Stokers and Chairs, Fine Furniture at a Fair Price. Free Cash, Odd Frames, Picture Screens and Book Cases—either of which will make home attractive and a beautiful present. Satisfaction guaranteed or your money refunded. Wishing one and all a merry Xmas, we wait to serve you.

Means that you can save handsomely on a nice suit of clothes or an overcoat.

We have cut a larger price than ever before on these articles and we are ready to make a larger one. We are working on our schedule of our collection of all the best articles in the line. We will give you the best that this line is worth, and we will do our level best to make you satisfied.

Raincoats and Overcoats.

We advise people who have put off buying their Overcoats to buy them now. We are not going to reduce the prices of them after the holidays. The demand is greater than ever before and we can not get enough coats. You will save money by buying now.

Our Annual Price Revision

No cost like being satisfied with a good job. Satisfaction is the best policy to adopt in the line of the work we do.

PROPRIETOR

Chester's 5 and 10 Ct. Store

W. R. NAIL

Means that you can save handsomely on a nice suit of clothes or an overcoat.

We have reduced the price of everything we have left in the way of Winter Clothing and Overcoats. We carry, as you see, the largest and best stock of Clothing in Chester and while some of the lots and sizes are broken, the variety is still large, and it will be money in your pocket to see us and make a selection early.

Raincoats and Overcoats.

We have not spared the knife here, and those who have put off buying their Overcoats until now will be interested in the Big Price Cut. They have made a big sale on Overcoats.

We will sell you a genuine 10.00 Priestley Gravenette, rain-proof coat for $8.60. Ask to see it.

We invite you to inspect our offerings; you'll profit by it.
Something Going to Happen

The Thing You Are Waiting for.

If it's something for Christmas

ROBINSON'S

Don't

You have a small gasoline engine and
wood saw to cut your Winter wood?
The engine is a nice thing to run a well
pump, too. Office has gotten above this sort of work now, you know.

Drop up a card and we will do the rest

ANCIENT EMBALMING.

In ancient times there is abundant evidence that embalming was practiced in the Orient and on the continent of Asia. In the Orient embalming was practiced on persons of exalted rank and the process was very elaborate and expensive. The person to be embalmed was placed in a coffin and the body was dressed in linen and covered with myrrh and other spices. The body was then placed in a tomb, where it was kept in a state of preservation for a long time. This was done to preserve the body for the day of judgment.

In the Orient the embalming process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient China the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient Egypt the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient Rome the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient Greece the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient Persia the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient India the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.

In ancient China the embalming process was very similar to that used in the Orient. The process was very expensive, and only persons of high rank were able to afford it. The process was also very time-consuming, and it took many months to complete. The body was first washed and then the organs were removed. The body was then placed in a coffin and the coffin was sealed with wax. The body was then buried in a tomb, where it was kept in a state of preservation for a long time.
