THE FOOTBALL SITUATION

(Bruno Daily Record)

When the members of Augusta College, the underdog in the football season, emerge from their practice field it is not with the hope of winning the game and losing the competition, but to see that the game and competition are played the right way.

As we view the matter, it is not so much those points that are being lost as the over-valuation of the sport for financial purposes. The sport has been turned into a money-making project.

It is the job of the college to sell tickets and raise money. It is the job of the sporting public to attend the games. It is the job of the players to win.

The students should be satisfied with a victory or a loss. They should not be satisfied with a season's record. They should not be satisfied with a season's record of home games.

QUESTIONS

A fellow crossed the country in a stage coach.

He asked the driver, "Don't you ever get tired of going through answering your foolish questions?"

"Yes, I wish I could," the driver replied.

"Then why do you keep at it?"

The driver answered, "Well, I don't want to be answerable for any accidents that may happen on the road."
