The purpose of the drive, which was announced by the Winthrop YWCA, is to set up a scholarship fund for prospective students. The goal for this year is $1,600.

Wolfe Tells Winthrop Students Stalin Won't Consider War Unless...

BY NARAGDEE WELTKING

"I do not think that Stalin will go to war against America. He is almost certain to stay out of any war in which he will be drawn into it on either side, because he knows he cannot win. Stalin is too cautious to take the risk of war, and he will not risk it unless he is absolutely certain of victory."

WWE tells Wolf...
The goal of $1000 raised at its conclusion will be donated to the Student Government. A substantial sum has already been raised from various sources, and the president of the Student Government, Miss Katherine Phbil, presented a check for the amount of $1000 to the Student Government. The funds will be used to support various campus activities, including the annual musical festival and other projects. The Student Government is pleased with the enthusiastic support for this event.

The Student Government thanks all who have contributed to the success of this festival, and they invite everyone to attend and participate in the activities. The Student Government looks forward to working on future events and improving the campus environment.

Since this column last reposed beneath your eyes, it has been noticed that the call of the wild is the cry of the day, "Just do what you damn well want," and it is. In your face red, no! Oh, you couldn't find an inch on the other side. A, b, c, in the best time to make reservations for the day, the line isn't so long.

All of this must be put in preparation for Junior-Senior, May Day, the Clemson Taps Ball, our next dance, or that coming soon. More power to those who lie and bake. Well done, faithfully.

Ladies' Day To Be Saturday Movie

Monday afternoon at 3 and Tuesday morning at 9 o'clock, Miss Gayle Rankin, director of religious education of the Union Avenue church, and Miss Maxine Patterson, director of the Winthrop organization in New York, will be visiting our school.

Miss Rankin will be with classes later in the afternoon.

The constitution and by-laws of the new organization are to be discussed.

Advantages Listed

The "literary map," Miss Wylie of the English department, told us, is the nicest innovation that education has ever developed.

In the first place, it is necessary for the student to do extensive research in order to prepare such a map, and in the second place it is important to the student to keep the public informed of his progress.

The maps, which are drawn by members of Winthrop's English classes, deal with the lives of various English authors. The places where they lived and the places where their chief works were written are shown as well as important dates. A list of outstanding events in the life of the author and a list of his writings are attached to the maps.
