Freshman Gets 'Jack Pot' When It Comes to Mail

By FRANCIS CALDWELL

One of the most exciting events to take place this week was the arrival of the first letter from Winthrop.

From a member of the junior class,励写姐, the letter was filled with information about Winthrop and its activities.

The first letter was not the only one to arrive, however. There were several more that followed, each one bringing a new piece of news about the college.

The letters were written in a variety of colors, with some featuring a blue stamp and others with a red one. The handwriting was also diverse, with some being neat and tidy, while others were scrawled in a hurried manner.

Freshman letters are always exciting, as they are a way for students to connect with their future classmate and learn about their experiences.

Freshman Becker, who received the first letter, was thrilled with the news.

"I can't wait to see what else is in store for me," she said.

Winthrop University Alumnae Chapter Hear Winthrop Musicians

Representatives from the Winthrop music department and student body gave a performance as a part of the Winthrop University Alumni Association's program.

Those who came to hear Dr. William E. Smith, Robert Walker, and Dorothy Kremes could not help but admire the talent of the musicians.

After the performance, the group gathered for a reception, where they shared stories and memories of their time at Winthrop.

The evening concluded with a tour of the university's music facilities, which left everyone impressed.

The event was a great success, and many hope that it will become an annual tradition at Winthrop University.
