WHITNEY N. Y. A. Seniors Offer Night Lessons in Two Fields

Whitney looks covet on Tuesday and Thursday evenings when 134 men and women climb to second floor Main building or cross the campus to Thornhill dorm to have more night classes taught by N. Y. A. seniors. This evening instruction is in the nature of post-graduate work for 27 men and women who are college graduates. Forty-three men and twelve of the 134 enrolled have attended high school and 91 are high school graduates.

These super-schools attend night classes for one of two reasons: for personal use or to increase occupational efficiency in order to advance from present position. And these students have a variety of jobs—111 of them are housewives, office workers, teachers, students, engineers, librarians, editors, "back room" finishers, and many from round and about Rock Hill.

According to Harold Gilbreth, the majority of these students enrolled are taking shorthand and typing, although quite a few are taking courses in sewing, interior decoration, and personal grooming under the direction of Miss Sarah Cameron, head of the home economics department.

The limit of students varies from 15 to 50, but the average is between 25 and 30 years of age, according to Mr. Gilbreth. Assisting in instruction are four seniors and juniors: Ellen Thompson, Pat Moore, Louise Young, and Phyllis Wilkerson.

How to Win Boy-Friends and Influence Stg-Lines

By Dale Dorothy Clix

Dear Miss Clix: My brother, a sophomore at X, College, is looking for a suitable for his friends over to our school and introducing them to me. But, oh, Miss Clix, they seem so much better-looking than my brother who, but just 300-pce accurately, I'm most apt to dislike my features. What do I do?

Dear "Agnostic": Say just one thing. Miss Clix, you realize what's wrong, but you can't tell him. It's a drama, you see. You're your father's daughter, and he's in the living room with your mother. He'll get the gripes, and I know that's why you'll be at home at night, it's eighty, half the senior class at home. You're going to get married, you see, so get married. It's all because of the gripes, and if you look a certain way, just to make it easier, and I mean to keep their mother's care and keep them happy, you see, the whole matter is just the same as a fashionable shade of nail polish. So, whatever you decide to bring on the Wild Game Night, just remember to be careful, and you'll do what your mother wants.

And now, dear, read the next COLUMN CAREFULLY!

Naudain Favors Draft For Men and For Nation

By ELLEN BELL

Dr. Glenn G. Naudain thinks the draft is a good thing for both nations and men drafted, but he does not want to see the United States become the militarized unit that Germany became.

Economically, Dr. Naudain pointed out, the draft will have the immediate effect of retarding unemployment. Especially will this occur in industries making for uniforms—will go up. Generally, the price of cotton—to be used for uniforms—will eventually cause a great depression.

As for the political aspects of the draft, Dr. Naudain said the decrease in production and increase in consumption will eventually cause a great depression. As the political aspects of the draft, Dr. Naudain said the east is more a favor of conscription.

"I am not a pacifist," Dr. Naudain explained, "but I am hoping that we can avoid another war by supplying England and China with all the materials that they need, for should Germany win and we have to face them alone, it will be hard.

Sorority officers, talking about the "Fair"—
Fresheaters, sorority members, Horsemen, and the freshmen were there.

But the best we who were left here could do was invade the county fair grounds and content ourselves with eating hot dogs and cotton candy—dancing pencils in the ring and getting ourselves tossed around on the ride and other bump vehicles. The urge for excitement pricked hard; prompted feminine shrieks and yells at the operators to go faster—resulted in tangled hair and a longing for more.

And toward supper time, girls in dusty navy plodded back to a camp to be held at King's home economics supervisor. Miss Mary York, Miss Alma Bente-son, state superintendent of agriculture, Miss Virginia Black, Frances Payne, and Helen Harriss, mathematics majors. The Winthrop convention.

To Report Monday

Sarah Shirley was elected secretary of the constitutional convention at the joint meeting of the body last Thursday afternoon in Johnson hall library. The meeting was called by Dr. J. P.
